

Have you visited the new website for the entire BK family  
**onelink.brahmakumaris.org?**

## A portal of portals...

**...Onelink is your doorway to an on-line universe where you can easily access nearly everything in the BK world.**

Designed with our whole BK family in mind, Onelink supports you in reaching your full potential by connecting you to easily accessible information, from schedules of events to classes, news and more.

There's no need to log in to view much of the information on Onelink. However, if you are a Center instrument, or working on a special BK project, your standard log-in is your passport to accessing information and resources relevant to your service.

Since Onelink's launch in late October, **Google Translate has been enabled**, allowing information to be viewed in Spanish, French, German, Russian and Portuguese, etc. A "Downloads" feature will soon be available, providing access to documents like Dadi Mags, World Renewal and other Newsletters; special audio and videos files; and images currently available in the Gyan Sarovar Art Department.
