

Avyakt Signals - 3 December 2020 brought by Sr Vedanti

BapDada is always in silence. Even BapDada's chariot, though still in the world, has been in silence for a long time. Whatever is happening to the body of child Gulzar, the soul is doing powerful service. Now it is good for the children to reduce the programmes and to take the whole Brahmin family into silence, silence from talking and silence of the mind. Spread this wave. When it's necessary to speak, speak less, speak sweetly and softly. Make this lesson firm.

Do not give importance to problems; do not discuss them. Become a point and give sakash to the problem, and everything will be all right. Stay more in silence of speech. Stay more in silence of the mind and maintain a direct connection with the Father.

You are the ones to distribute the treasures received from God. Take as much as you can and distribute what you have with an open heart. Now only this task is left. Spread the wave of silence everywhere.

BapDada wants each child to become responsible and start the work immediately through which there will be benefit for the self and the world. Especially celebrate the month of December as the month of "**Silence of the mind and silence of speech**". This is what BapDada wants.
