

## January 7, 2021 – Bhog Message brought by BK Mohini

Today in the subtle regions Baba's *drishti* was beautifully expanding and taking the shape of a big canopy with very beautiful rays. It looked so beautiful seeing Baba's *drishti* as rays of love and light for all of us in the form of a big canopy. We were very happy when we saw this beautiful golden colored canopy above us. Then Baba personally shared *drishti* with me, gave *drishti* to the *bhog* and accepted it with a lot of love.

Baba said, "Baba is World Benefactor, and the children also are master world benefactors." Baba said, "Tell all the children, 'You are world benefactors.' Even if some might not have the thought that I have to serve the world, but actually everyone does this because of their love for Baba." Baba said there are two special powers that children have: one is the power of purity. This power is in every child and is bringing benefit to the world. Of course, the power of purity is important in preparing for the new world, but even now this power of purity is bringing benefit to the world. Every thought gets accomplished when it comes from a pure heart and pure feelings. No thought can be wasted. So, use the power of purity, and as your nature becomes pure, then every thought is a pure thought and will get accomplished.

Second, you have the power of yoga, soul conscious remembrance of Baba. The power of yoga keeps you free from obstacles. So, both powers are bringing benefit to the world. And Baba is very pleased to see that each child is making good efforts. Then I said, "Baba we are also doing homework for 31 days to follow the footsteps of Brahma Baba". Baba was smiling, looking at all of us and Baba said, "Yes, children want to be like Brahma Baba, so they want to follow. Some are making effort to be *bap samaan* and are becoming that. But some still think, 'will it be possible for me to be *bap samaan*?' They want to remain close to Baba, but still don't think that they can be like Baba. But because of their relationship with Baba, they do receive blessings. Baba definitely gives blessings to every child."

Baba said that Baba had the authority of knowledge. He was very detached and lovely. You children also have all knowledge, and when you change knowledge and apply it in your practical lives, then this authority becomes natural. Then you will also become detached and lovely.

Always remember that because of being children of the World Benefactor, every scene of drama brings some benefit to you. Baba said that you can experience those benefits, and you should write those benefits. Before many children thought they had to run around and go out, even for class. But now Baba has given you time. So, use that time for your study, for preparing yourself. Of course, all the children have love for service. Everyone wants to do service. Baba said, "Continue to do service in whatever way you think is best and using whatever methods you all have. The children are actually preparing themselves to be worthy and to be *Bap samaan*."

As you all know it is through avyakt BapDada that the meeting takes place in the subtle regions, and Brahma Baba is there. It was very interesting how Baba opened his arms and said children, each one of you is always safe in Baba's arms. You are very cooperative souls. You are always thinking about Baba's task. So, Baba wants to give you not only blessings but congratulations. Always remember to keep courage and to be consistent. When you have courage and are consistent you will find that you are very near accomplishing your aim of becoming like Baba.

Baba said to give love and remembrances and blessings to everyone and tell them that when you think of Baba, or think of offering bhog to Baba, your thought reaches Baba.
