

January 31, 2021 – Bhog Message brought by Sr Mohini

Taking everyone's love and remembrances, I went to offer *bhog* to Baba. Today it was a beautiful scene in the subtle regions. It was unlimited. There was a large number of flowers in front of Baba, which was such a beautiful scene. Generally, we will see flowers with the plants, but today it was only beautiful flowers, and Baba was looking at this beautiful garden of flowers. The face of each one of you was like a beautiful flower, very colorful and blossomed. Baba was first seeing from above, and then He was walking in between among the flowers, sharing *drishti*, looking at everyone with a lot of love. I also was sharing *drishti* with Baba. I said, 'Baba do you see all the flowers? Are you seeing them, or are you feeling something?'

Baba smiled and asked, "What do you feel?" I said, "I feel love and that through your *drishti* you are filling and doing something to each one of us." Baba said, "That's what I do: I look at each child, and through *drishti*, I give something to each child, and today, Baba is especially giving a lot of light to each child. Because light is important for each flower." So, then Baba was looking at me and said, "What do you do when you share *drishti*?" I said, "In soul consciousness, I think of you, and I know that you will give."

Baba said, "You all have to remember that we are not looking at what someone is at this moment, but just sharing love, light and power. Why don't you all look at each other now and share Baba's love and light." And I said, "But Baba now you are here." But Baba said, "Still look at everyone as a beautiful flower." I don't know how to explain to you all, but it was like a moving garden as if each flower faced another flower and looked at each other.

The color of each flower is each one's speciality. Each one is unique and special, a different color and variety, and you like each one. You don't say "red is better or white is better" but in the subtle region it wasn't red and white. Everything was golden. Every flower has a different fragrance, so Baba said that the fragrance in each one is of purity. As much as there is purity, the fragrance smells very sweet. So, this sweetness of the fragrance should be the quality of your *drishti* for each other now.

Then Baba said that outside in the world there is a lot of tension and fear, but children are free from tension and fear. Children are fearless and *loveleen*. Because when you are merged in Baba's love there is no fear. So, remain *loveleen* and free from any effect of the outside world of *kaliyug*.

Then Baba said, "In the month of January each one of you had the aim to be *Bap samaan*, to become complete and perfect. So, congratulations to the children, because the children had the very sincere aim to be *Bap samaan* and have made good effort. Now is the time to give the finishing touch.

"For the finishing touch, you have to be very stable and also very subtle, very *avyakt*. Minute details are very subtle. So now you have to see what subtle aspects are still there to be transformed or decorated. The protection of each child is that no one, nothing, can touch you."

You say, "I have to follow the footsteps of Brahma Baba, and Brahma Baba took every step by following *shrimat*. So, all your thoughts, words, actions and relationships should now be based on *shrimat*. Some children may not be sure what *shrimat* is, so have a discussion among yourselves and go into details of what *shrimat* is for thoughts, words, and actions. Talk about not only his *sanskars*, but what he thought; what he spoke and his relationships with everyone. This will help you to be complete and perfect.

When we came back into our original form, Baba gave *drishti* to everyone with a lot of love, which made every child very blossomed and happy. Baba said, "Stay *loveleen*." And I brought remembrances for each one of you. Om Shanti.
