

Beloved Avyakt BapDada's deeply loved instrument teachers and brothers and sisters of this land and abroad, who are the decoration of the Brahmin clan, those who are always engaged in world service, and who are seated on God's heart-throne through your renunciation, tapasya and service, please accept Godly love-filled sweet remembrance.

Respected Dadi Jankiji, one deeply loved by all of us, who was always seated on BapDada's heart-throne, who was the pride of the whole Brahmin family and the embodiment of renunciation and tapasya – our Former Chief Administrator – it is now one year since she renounced her physical body. On the day of remembrance of her first anniversary, some brothers and sisters from this land and abroad arrived in Shantivan to offer her a special tribute. On the 27th morning at 7.00 am, some senior brothers and sisters inaugurated the beautiful memorial "Shakti Stambh" (Tower of Power) created as a memorial of Dadi Janki, by putting garlands of flowers in silence. After that, all brothers and sisters who had come also offered garlands of flowers and emerged all their memories of Dadi in Dadi's sitting room, and then gathered in the Diamond Hall at 10.30am, where senior sisters and brothers shared their beautiful experiences with Dadiji. After that, in the afternoon, Rukmaniben offered special bhog to BapDada in Dadiji's name. Dadiji came into the gathering for a few moments, gave everyone sweet drishti, flowers and fruits and took them beyond with her glance. After that, the message brought by the messenger is as follows:

Today, when I reached Baba in the subtle region, I saw that Dadi was sitting very close to Baba. As soon as I reached there, I gave the remembrances of all brothers and sisters. Baba said: Child, there are two things in the world. One is sorrow and the other is happiness. Today, Baba is especially receiving remembrances of all the children for Dadi. The remembrance of elevated thoughts is reaching Baba with a fast speed. With that remembrance, Baba made the child, Dadi, emerge there in the subtle region. Then I said: Baba, since everyone is remembering her, in return for that remembrance, something has to be given, something has to be done. Baba smiled with a very sweet drishti and said: Child, everyone has tied the Father with their love through this remembrance. Then, it was as though I fell asleep in the subtle region, and I wasn't aware of where I was. (Dadiji came into the gathering for a short time and took everyone beyond with her drishti.) After some time, Dadi came there with Baba, after having toured around there. I said: Dadi, where did you go?

Baba said: Something has to be given in return of the remembrance, so Baba had taken the child to the physical world. Baba then made everyone emerge in the subtle region and said: The vision of the whole Brahmin family is especially on the Dadis because they are the original jewels. The child has done a lot of service tirelessly in this land and abroad. The month of March has become a special memorial of the Dadis. Dadi Gulzar's 12th day was celebrated and this Dadi's 12 months is being celebrated. This is also the symbol of their love of the confluence age. In sakar form also, the Dadis had a lot of love for one another. Baba said: In the subtle region too, a gathering of the Dadis has come together. When Baba said that a gathering had come together, then along with Dadi Janki, Dadi Gulzar, Dadi Prakashmani, Dadi Chandermani and the other main Dadis also emerged. Baba said: Now, in the subtle region too, this gathering of those whose thoughts are focused on establishment is getting stronger too. Now, the task of the establishment will be accomplished at a very fast speed. Baba, You are giving all the children this signal that now is the time to be very subtle and go very fast. Children mustn't make any mistakes and need to pay attention to their elevated effort.

Then, it was as though bhog was placed in front of Baba and the Dadis, and Baba made all the Dadis accept bhog from Madhuban with a lot of love. Baba said: Look, those who have made this bhog, those who have decorated it, and those who brought it serve with so much love. So, today, give remembrances to all those children who have prepared the bhog, who have prepared the place and those who brought bhog in front of Baba. Baba gave special remembrance to all the children from this land and abroad too. Baba said: Today, all are sitting with one aim, and Dadi is intoxicated in herself. Just as Dadi used to run around in the sakar form, so, on this day, special remembrance of Dadi and Baba was merged in each one's heart. Saying this, Baba and the Dadis gave loving remembrance and, bringing this love and remembrance, I came back down.
