

Om Shanti!

I think yesterday when I finished talking then when we were sitting in Baba's remembrance, I could just feel what is being merged in Baba's love. Baba says that now is the time that as much as you will merge in Baba's love, because when we have this experience of merging, Baba generally says then to the same extent that company colors, right. So in the company of Baba just imagine I will be colored, isn't it? I will have so much power. So, even 2 minutes, 5 minutes, 10 minutes whenever you get a chance, just try to experience the stage of being merged. And then having one thought per day has been very helpful. I find that whenever there is any type of different energy or Baba says not to get tired but because of any reason you find that you do not have that enthusiasm, just reminding yourself of what you have to do you know that elevated thought definitely gives a lot of enthusiasm. For me in my life one of the very important qualities has been trust. I trust my own self so much that anything I have to decide or do or happen I just become introverted, get in touch with the true self, myself and I could just hear yes! ok, go ahead, or wait. That means you have to listen to yourself and then you can listen to Baba. And then of course this quality of trust like I really love to trust everyone. Because I find that when there is trust, there is honesty on the other side. Because if I don't trust I cannot delegate, I cannot ask them to do something or take care of Baba's yagya. I had been trusted and because of that I am able to do what I am doing today. But yes, in spiritual checking from time to time, if there is any ownership start coming right, some trustees forget they are trustees. Or sometimes not only ownership but little bit thought of I and My comes. So that is why Baba has given us this gathering. So we don't let anything happen which is not right for the Yagya. Today I was thinking that for myself, yes! I am a trustee because I don't own anything, I don't have anything and I don't want anything. Baba is giving whatever Baba gives, whatever our needs are, are being fulfilled no! So trust! Self-trust is very important. And then also you know everyone has to be more responsible for the Yagya, create fortune for Yagya and that's only possible if I trust. Trust others. And also it is important to listen to everyone right, whatever they have to say, what is in their mind. By listening the relationship of trust is created. And there shouldn't be any fear, you also have to be fearless in this way. It's not that I don't need to be scared of anything because karma's are very powerful right. If because of any influence anyone is doing, anything wrong or some unnecessarily make everything expand and you know through energy the atmosphere is created which is not healthy for everyone. So how do we pay attention as protectors of the Yagya that such an atmosphere is not created. And mostly it happens through words right! So, yes, there are certain things which I think that everyone needs to kind of get their needs fulfilled but it's not necessarily that I have to get involved in a lot of words. To keep the Yagya's atmosphere which is very peaceful, and loveful. More and more love for each other, love for the Yagya, love for Baba. So, we will look into self-trust, trust in Baba. Because I remember how many times we remind Baba. Baba I had asked you to do this but I haven't seen it happening yet. Do you think Baba needs reminders? Baba doesn't need it. Even during Brahma Baba's time, once we told something to Baba, we didn't need to go often to Baba. When we went, Baba didn't like it. If something happened you should notify him. But if you go again Baba will say it's

becoming your habit. Now you are complaining. This is not a good sanskar. You said once, okay, Baba will take care. So, Baba's teachings also are such where we have to build a lot of trust in the families, unlimited families. From the very beginning there were 300 and now how many we are, a lot no! Sometimes since I got my new assignment, one minute I say oh! One million passengers in this big ship you know. So sometimes I say oh! Everyone has to get sakaash. It's a lot no! It's our world family, global family, and so many varieties. But also, Baba finds the way how we could sustain. So sustaining the self but keeping elevated awareness, at least one thought the whole day. So, that will not only keep the battery charged as Baba said but there will constantly be enthusiasm also. Baba said no to tiredness, don't lose enthusiasm. Because there will always be some situations externally, some challenges will always be there! But if we see how much support is there then we won't see the challenges right. Challenges you can count on but all day Baba's support, family's support, my own inner strength makes everything enjoyable, not only easy but we are happy. So, we will be working on looking more on trust but it's always like you find how many times I remind myself of trust. Because I know I have but if I don't use it, not only become aware of it but I have to use it. Help others also. So, it's only when I use it, then Baba said that's how you could experience it, you can see the power the way it is working. But if I just say oh! I have but I am not using it. So Baba said even for blessing, when it comes to blessing you have to use it so that its not just awareness you become embodiment of that. So we will reflect on trust.

Om Shanti
