

May BapDada's very loving and co-operative divine family, please accept very loving remembrance.

On 16th July 2021, a programme was organised in Om Shanti Retreat Centre (ORC) in **memory of Baba's Kohinoor- Dadi Gulzarji**, and bhog was also offered to Baba. We are sending you the brief news of the programme and Baba's message with this letter.

A special tribute was given by all devoted brothers and sisters of the Delhi Zone to the former Chief Administrator of Brahma Kumaris, respected Dadi Hriday Mohiniji (Dadi Gulzarji), in ORC. Bhog was offered to Baba for Dadiji in which the main brothers and sisters of the zone were present.

During the program, senior sisters, including the **Additional General Secretary** of Brahma Kumaris, **respected brother Brij Mohan**, shared their experiences with Dadiji. Along with this, the doctors who were instrumental in looking after Dadiji's chariot, which was also Baba's chariot, also shared their experiences. Everyone spoke about the inspirations they took from Dadiji, remembering her wonderful nature and her personality, her silent and loving nature, her far-sighted intellect, her most elevated sacrifice, tapasya, love and immense power. Neelu Behen and Tara Behen, who served Dadi for many years, also shared their experiences.

After that, Geeta Didi of Siri Fort, Delhi, and ORC Director offered bhog to Baba and brought the attached message.

Apart from this, the '**Divya Prakash**' **mega-watt level hybrid solar power plant** was inaugurated by respected Brother Brij Mohan, **Additional General Secretary** of Brahma Kumaris. This plant is India's first plant to run on Lithium-Lead Batteries by converting sunlight into electricity and making clean and pollution-free electricity, which assures that electricity does not go out even when the grid is turned off.

In Godly service,
Your divine sister
B.K. Ashaben

**Sweet bhog message on offering bhog to beloved Baba for
avyakt image respected Dadi Gulzarji (through Gita Didiji)**

Today, when I reached Baba in the subtle region, many brothers and sisters had already arrived there in advance. Baba came in front of me. I said to Baba: Baba, all these brothers and sisters have come to meet Dadiji. Everyone has given lots of love and remembrance. Baba emerged all of you in the subtle region. There were many brothers and sisters: some had brought bouquets, some had brought garlands, some had brought gifts and they were giving all of this to Dadiji. Then Dadiji also came in front, I met Dadi and took drishti from her. Dadiji and Baba gave very loving drishti. Then I said to Baba: Baba, today, all the Delhi resident brothers and sisters have sent bhog. Baba, You accept it and also offer it to Dadiji. Baba said: Those from Delhi remember Dadi, but what do they remember? I said: Baba, we remember Dadi's specialities, virtues, sustenance, drishti and her words. Baba then spoke about Dadiji saying: As much as Dadi was detached, she was just as much loving.

Dadi had kept this aim in her life to become equal to the Father. Dadi always followed just the one Father, and not any brother or sister. While following Baba, while doing tapasya, and being intense in her efforts, she created her stage. Baba said: You remember Dadi, but you do not remember her thinking that just as she created her life and had specialities in her life, we also have to imbibe them. Baba said: Today, you have brought a garland of flowers, but garland should all the children bring? What garland should be put around her? Baba said: Firstly, create a garland of Dadi's virtues. Secondly, create a garland of Dadi's specialities. Remember what virtues and specialities she had. Create a garland of that and put it around Dadi, and that will be a memorial.

Just as Dadi was an embodiment of love, she also had just as much balance of law. Whatever disciplines and codes of conduct Baba taught us, Dadi imbibed these in her life. Baba said: You may have love for Dadi, but whatever were Dadi's virtues, specialities, sustenance and service, remember all of those things. Baba said: Children ask how they can follow Baba, how can they become so elevated? Baba said: Dadi is also an example in front of you. Since Dadi followed Baba, can you not follow her? Baba said: Always pay attention as to whether you are following your brothers and sisters or Baba. Baba said: If your vision is on brothers and sisters, then you will see both their virtues and their defects, but Baba is the Ocean of Virtues, the Ocean of Knowledge and the Ocean of Love, and so you also have to become a master ocean like Him. Baba said: Not a single virtue should be missing because you have to become complete with all virtues. This is the memorial of you children. Baba is the Ocean of Virtues. All of us were looking at Dadi and Dadi was giving drishti. Baba spoke of Dadi's three specialities. 1. We take Dadi's drishti. 2. We listen to her words. 3. Dadi's state of mind is very pure and peaceful. You can even call her a goddess of peace. Baba said: Bring such power of peace in yourselves because in today's world, there is only peacelessness everywhere. It is the responsibility of you children to finish that peacelessness.

To the extent that you become souls who are embodiments of peace, accordingly you will be able to give many souls the experience of peace. Along with this, you will be able to make their attitude and the state of their mind peaceful. Baba said: It is only then that the Father's revelation will take place. You chant the slogan: We will celebrate the year of revelation. We have to bring about revelation, we have to bring about revelation, but in order to bring about that revelation, first of all reveal yourselves as to what has Baba made you. Just as we have the Dadis in front of us today, and we think: How did they become that? In the same way, you will also become this and reveal Baba and also reveal the Dadis. Baba asked: Who are all these? I replied: Baba, all of these are brothers and sisters who are residents of Delhi, and everyone is remembering Dadi a lot. They have taken sustenance from Dadi, and all of them have experienced how they receive

power from Dadi's drishti and her words. When BapDada used to come in Dadiji, we used to receive peace, power and many special inspirations. Even now we remember that when Dadi was there, we used to go there and always had this one concern of when Baba will come.

Baba said: Tell the children that whenever they have any such thoughts, then go to the subtle region. However, it is only when you adopt the avyakt stage that you will be able to celebrate an avyakt meeting. Baba said: Nothing will happen by just speaking about it, but it will happen when you do it. To the extent that you imbibe the avyakt stage, you can come to the subtle region whenever you want. I asked Dadi: Dadiji, what message are you giving everyone? Dadiji replied: Tell all the brothers and sisters that there is very little time left. It is now the final period and the final birth. Dadiji said: Even though you are seeing the situation of the world today, seeing that you are not paying attention to your own stage. You speak about the situations, "Today this happened, today this happened." Dadiji said: Look at your own stage. By seeing the situation and speaking about it, you begin to think about that. Situations will come, but while seeing them and hearing about them, make your own stage powerful. Baba also said: Many times children have been given the message to make preparations to return home and to be ever-ready. Baba said: Because children are careless, they hear but do not hear and do not pay attention to it. So now, tell the children that the time for laziness and carelessness is gone. Baba said: If you are even now lazy and careless, you will not be able to be ever-ready. In this way, Baba and Dadiji gave all of you lots and lots of love and remembrance and then gave me leave.
