

Om Shanti!

Yes! We had been making an effort and trying to practice to be merged in Baba's love, at Amritvela. Yesterday we were talking a little bit about healing power and I really experimented on it. Of course Baba talks about the bodiless stage but if you just become I am a soul, soul consciousness. Baba an Ocean of Love and I merge in that love deeply just sit in silence and merge in Baba's love and you will find that how the vibrations of that start not only healing your body but there is lot of feelings of empowering that means I have strength, I have power and you know you all heard Murli this morning where Baba said that the courage which Brahma Baba had, actually the second step, the first Baba said is surrendered, Courage to surrender but then okay after surrender what happened later, then he had to tolerate but the kind of tolerance he had, it couldn't be one's own power. Because in lokik lives a respectable businessman, a respectable person because of his principles, he was very kind, he used to share his wealth to all those who needed it. So he didn't experience what we call as any kind of opposition or criticism but Baba was sharing we know his life history that first thing that started to happen was that people were very against of course they loved the teachings, they really all wanted to be followers but as soon as certain principles were spoken and families and young ones wanted to follow that principle, especially celibacy, then there was really that bitterness and seeing that how these young people will not be creating the families or those who are in families, some are not able to live that life. So there was a lot of anger, and they tried their best whatever they could do to stop those who were going. You have seen some of the pictures we have been showing in which all little ones, older ones are shown. So there was picketing, their families were against and so they were making Baba responsible and they were sometimes very much in anger doing many things and Baba was, you have seen his picture standing on the top floor in his balcony and he was smiling, he was unshakable, he was not concerned, worried what will happen. In one of the Murli Baba described he was so carefree, you know sometimes each one of us should really imagine yourself to be in situation like that and how you feel, not have any thoughts of what will happen, they might do this, now this might happen, my name is being defamed, main thing is name is being defamed and I give you example that once Nirmalshanta Dadi was in Calcutta and they were doing some exhibition or something and there was an article in the local newspaper about

Brahma Baba, completely wrong description of what he was and so she got kind of upset because it was being said for her father, lokik and alokik relationship. So she called Baba and said that I want to respond to that and I want to say something and Baba said no, you don't need to do that but yes later on you can just give a proper biography of Brahma Baba but not respond, nor react to that and I always remember this! I know whenever in our meetings we have anything where we are accused and there is wrong publicity, we say oh! We should respond and I always remember what Baba had told Nirmalshanta Dadi that means tolerance to an extent where there isn't any feeling of let's give them back, the way they are talking and you know his love and especially mercy. He was very merciful and he knew that they are ignorant, they don't know, if they had met God and experienced supersensuous joy and got all this knowledge then they wouldn't behave like this right! But they don't have that knowledge, however we have knowledge. So how can we react in this way with people who don't have knowledge. So what I am describing here is that the tolerance which we, or he had I don't think it's just from his soul, this is God's power because he was not alone, he had faith in Shiv Baba and he remained merged in Baba's love and you could see from his eyes that companionship he had created, creating Baba's presence in his life, that they were combined, they were together that much love. So merging in love, empowers means whichever power you need, you will find you have that power, subtle fear of how people will think about me, what they will say about me, stops. So many are unable to move forward, they are always thinking what people will say. I know even when I came to Gyan only what I heard from my family, this is what people are saying, this is what the society is saying. I said let them say what they have to say. I will still do it. I won't say anything, I internally said I will still do what I want in my life but I don't have any bad feelings for them because they're doing their duty right! They feel they are responsible, they have to take care. So they're doing their duty, let them do, let them say but I have to listen to what Baba says and I have to do what my calling is about in my life. So merge in love and love which gives power that there are no bad feelings right, not even any wasteful thoughts, can you imagine, can each one of us think about at least for the self. We will say something subtly because we are not merged in love. So practice as much as possible to remain merged in love, so that the power which is required according to the present situations, you will have power, you will be victorious, you will be carefree, you will be very happy and never ever feel nervous, or confused, or fearful. So tolerance, I remember that sometimes you know somebody says something to

someone and our Dadis used to say “kaha laga - where did it hurt, where did it hit you, nowhere?” Words don't but because we are body conscious, not merged in love, every word creates reaction, every word, why this one said, shouldn't be said like, shouldn't be like that and we create that subtle conflict, waste of time, energy, no good relationships but look at Baba's tolerance. So merged in love, if you want to experience this stage, still we have time right, still we have few years in our brahmin life, let us look at Brahma Baba and also practice this 'stage of being merged in love' yes! Tolerance shouldn't be like I am being tortured right! Sometimes little tolerance is like oh! I have to go through such difficulties like a torture because of course there is body consciousness but soul is not merged in God's love, you know that is why moving forward has not been easy in many people's life because they are stuck with their sanskars because of not practicing or being merged in God's love. If there is faith, I am surrendered, I belong to Baba, I want to do service, you will need tolerance right! As I said tolerance is not as if it's being forced on me. I think for each one of us from now onwards, experiencing the stage as Baba's stage - Follow Father, practice to be merged in God's love. I don't know how many of you are practicing and if you practice you will find that your power is increasing. So Baba said there were three types of tolerance, one is of course the insults and abuse and anger and all kinds of defamation and second because when we are establishing, we are doing God's task, whatever are the circumstances sometimes you have let's say everything is available, sometimes you don't have. These days for service you need everything and you have everything but many of us when we started service, we didn't have anything, no place, no money, we didn't know anyone but there was God's love and with that love there was so much power. You know when Dadi shared they didn't have anything to eat for so many days and they were just happy with salt and with a little flour they would make chapati and sing Baba's praise and feel very happy right! And these days I want this, body needs this, body needs that and the whole day that's the whole story of body and of course you have to take care of body but how much our attention is in body no! Lack of also taking power from God's love. Whether it is the soul, whether it's the body, anything that we have, empowerment which has to come from God becomes your permanent virtue, kind of your nature. So whether we look at Brahma Baba, we look at all the Dadi's, right! So practice this stage in soul consciousness, Baba is Ocean of Love, I am the being of love, Baba - Ocean of Love and just stay in that one thought and stay for 10 minutes, 15 minutes as long as you can and you will find the change in you and that first change is your power of tolerance is

very natural, very easy. We still have to do service right, so there might be adverse situations in service but if I keep saying I can't do it because of this, I can't do it because of this. Dadi Janki once said she was given money to travel by bus. She said no, let me walk and save that money, so there might be time we don't have transport but still we will go for service. So there will be, or there could be circumstances, where there are not enough facilities, so we have to come out of our comfort zone and say I will still do Baba's service whatever may happen. So until the end of the journey, there are still many possibilities, so don't be scared already by saying oh! I won't get this to eat what will happen, what happens, nothing happens, it's just your imagination and your fears. So merge in God's love and that happens through soul consciousness because we have faith, we are surrendered, we want to only do Baba's service but there's not enough tolerance, even to stay with different people some are scared, everyone's nature will be different and Baba had so many children, all children of different sanskars, nature but in soul consciousness with love, everything was so pleasant, no! Baba said life of joy, life of happiness. So, see how was the loveleen stage of Brahma Baba that he took this step of courage and tolerance was easy for everything, whether even within the unlimited family. Yes! Everyone is different but love, and respect for everyone emerges if I am merged in God's love, I am being of love and so many surrender. I know during Brahma Baba's time, many young ones from different villages came and they just started doing certain things, now they all are big brothers, taking care of departments, taking care of so many things, whether cooking and so much more. So it is the same to become an instrument where others are inspired to belong to God. All that will happen more and more, if we create the stage of being merged in God's love. So think about it, churn and possibly read Murli again. Keep aim to Follow Father and it's not only for doing but your own inner joy definitely also increases. Om Shanti!
