

Om Shanti

As soon as you think, "What will happen?", you get stuck, right? Always remember Baba's drishti of blessing, and Baba's hand of blessing; whatever happens will always be good for us. Yes, for some, settling happens, but Baba helps. He can make a thorn from the gallows and when we are doing service, Baba helps, so that the task is accomplished. Baba is always with us. Every step you take, take with the faith that Baba is with me, Baba is my companion. Even though sometimes you might find your intellect is not stable, Baba will help. The practice of soul consciousness is definitely important, so I can take from Baba, and receive from Baba. There is great power in faith. Whenever there is any thought or you're doing something, just say, "Have faith." When you have faith in Baba, you have victory and success at every step. Mamma used to tell us that those who do not have faith in Drama cannot maintain faith in Baba, because most of the questions which arise are not about Baba, but about Drama. Questions like, "I didn't know this could happen", "I thought something else would happen", "I was not expecting this." These are some subtle questions about different scenes of Drama, but that is the time to remember to have faith in Drama. What is faith? At present, we are at the most auspicious Confluence Age, and we are Baba's instruments, Baba's Children. Baba has given us the task, so Baba is responsible for us. You must have noticed how Baba took responsibility for us all the time. Faith in Baba, and faith in Drama.

One of the important qualities of all the Dadis, especially Manmohini Didi, was obedience. If I am obedient, then the One who is giving me directions becomes responsible, because I am just following. Once, in Ahmedabad, Baba wanted Dadi Prakashmani to print some flyers, but there was no money. So Dadi just left for Ahmedabad by train, and when she arrived, she just kept walking. She didn't know where to go. Then, a person asked her, "Are you looking for something? or Where are you going?" He felt that she was not sure. So Dadi said, "I am looking for a printer." Of course you know those days, in their whites, and they were shining. This person took Dadi to a printer and then Dadi explained that she wanted flyers, and the man asked, "How many?" Dadi said, "Maybe ten thousand, how much will it cost?" Dadi explained in such a way that he just said that he will print them. It's not only Dadi, but even when we came to New York, we didn't have much money, and we did such big programs at that time. Sometimes, I wonder why we can't do that now when we have everything. Wherever we go, if you are honest and you're doing it the way Baba wants, then Baba has to provide, right?

One time in Delhi many years ago, in the beginning, when we didn't have much, Baba said that He wants a very big billboard near the airport so that everyone can see the cycle and the Kalpa tree. We knew that this was a few thousand rupees to rent per month, so we said to Baba, "Baba, it's very expensive, who will pay?" Baba said, "I didn't ask you that, Baba will fill his Bandari." Some way or another you get a sponsor, and they do it. Once, I went to Bangalore where they had a very big mela but the sister there was saying they were busy or that they couldn't get any billboards. You would be surprised, we were still talking, and she started getting calls near the program, you need one billboard, two

billboards, three billboards. People were saying this program is happening, but they're not seeing any promotions. They were offering to help promote. What I am doing is not my desire, but it's Baba's task, so I have to say yes to Baba. I am obedient, then the intellects of those who have to create their fortune will be touched. I have experienced this a lot, that once you have a pure thought that this task has to be done, the right person, the right resources, everything will emerge.

When there is faith then you can be obedient. Yes, it will happen, as Baba had said, according to Drama, it will happen. Baba will make it happen. Baba said that for Baba to get tasks done is not a big thing, but Baba wanted that the children should create their fortune. Then He said to be very simple, children, drop by drop, the pond gets full. Baba doesn't need millions and billions right? One time, Baba was saying how much money is spent on weapons, billions and billions under water, in the sky, on the land. Comparatively, how little does Baba spend to establish the Golden Age with power of purity, the power of God's love, the power of knowledge, and the power of faith. Our weapons are these beautiful non-violent weapons of different powers, whether those powers are for my own self, or for the Baba's task. Take every step with faith and obedience because if I have faith then I will listen, I will follow. If I lack faith, then I keep thinking, "Is it right?" "Should I do it?" "Should I not do it?" Even if you have very subtle doubts, you definitely lose. That's what I have seen, for any task, if you have even very subtle doubts, your energy, your power is depleting. Have faith, one hundred percent faith. There have been a lot of experiences, over so many years, but even now, I find once there is faith, tasks will be accomplished. You will definitely move forward. Now, churn and reflect and practice tomorrow the quality of obedience, but do it with faith, not just because, "I am listening to Baba." Be obedient with faith in Baba. Drama will always be beneficial for you. So think about it and then yes, all these qualities come by merging in God's love.

Om Shanti
