

Om Shanti

Baba's Dilruba Children, those who are seated on the heart throne of Dilaram Baba. Isn't it beautiful? Dilruba Children! Baba gives us sustenance, this is what Baba's presence is, and His sustenance is through His murli. Murli not only teaches us, but it guides us, gives us directions, and tells us what to do at the present time. Baba gives us many many methods. I am sure that this helps us to stay connected with Baba, when He speaks, we feel how close we are to Baba. Are our thoughts and planning similar to what Baba says or what Baba wants? This idea came, that at every center, at every home, we could have a message on our phone or answering machines, so anyone who calls could get the message. Don't just be happy to have centers and some students. At least one drop of love, God's Love, should be experienced by all souls. Sister Gayatri mentioned this morning, according to UN figures of population, that 7.8 billion souls still have to get Baba's message. Of course we will find different ways, but one very beautiful way, Baba said, is knowing the importance of each thought, how each thought can serve, and to know that it does reach others.

Baba says that as much as there is power in the thought, somewhere it will also touch the souls. So, each one of us, whenever we have a few moments, not just during world meditation hour, but I can be a world benefactor with even a few thoughts that have God's Love, power, silence, and peace. Until we find different ways to spread the message, at least we can serve through thoughts, where souls can get direction, and they come to know how to get liberation. Baba said that everyone wants liberation, and also everyone will say "Our Baba, my Baba", not Baba of the Brahma Kumaris. Everything starts with thoughts, elevated thoughts, powerful thoughts, and anyone's thoughts can reach the souls in the world.

Murli is the source through which Baba is guiding us, in the sense of our next steps, and what we have to do. In today's murli, Baba said that to attain the karmateet stage, you have to be a karmayogi. We do seva in actions, through words, and through thoughts, but karmayogi will become karmateet when there is yoga while doing karmas. So, I was listening to these personal points, there were seven of them, and I really liked each one. He gave seven types of awareness, so we will take one each day and use it. We can create that awareness during traffic control and remind each other what has to be my smriti - awareness while doing actions to become a karmayogi. Then Baba kept saying that this is the way you will move forward, because we are on a journey. This is not only a pilgrimage of silence, but there are two types of journey, one is physical that you do every year, but another is spiritual. We have all started this spiritual journey, and we want to reach our destination, that is the karmateet

stage. Karmateet means that I have settled all past karmic accounts, so there is no pull, no effect of that, and I can move forward by doing elevated actions.

When Baba became avyakt, Baba came and spoke to us through Dadi Gulzar for 40 plus years. Now, we are revising those avyakt murlis, like this one was from 1988. The murlis that Baba spoke 10 or 20 years ago are still very appropriate for the present time, you will feel that Truth doesn't change. Depending on our stage, what we need, and our spiritual requirements, Baba's every word is appropriate and helpful. Baba said, "I love everyone. I searched for you in all corners of the world, why wouldn't I love you?" Baba said that if one doesn't feel love, or thinks that Baba loves someone more, this is because with thoughts, wasteful thoughts, and internal struggles, we lose the love. If I don't have love, then how can I feel love? Some souls only work intellectually, and have a hard time connecting with love for the self, love for Baba, and love for all souls.

The experience of the power of remembrance is the most elevated experience. It is this power that enables you to experience success in every task. Have the awareness that you are a soul, who is moving forward with the experience of this power, and move forward as much as you want to. If there is powerful remembrance, you will continue to receive special cooperation from Baba and also from all souls. So, tomorrow's awareness is the power of remembrance. I have the remembrance of One Baba as a Point of Light or any relationship, but in the intellect, there is only One Baba, even for 15 minutes, or half an hour. I am not just a soul connecting with the Supreme Soul, there are certain subtle things that we still carry. Go beyond them, then the true power of silence emerges, true silence from which you will have this 'siddhi'. For example, whatever is far, you will see in front of you. Experiment with this in silence.

Tomorrow, when you sit in Baba's remembrance, or tonight before sleeping, just check, "Am I carefree? Do I still have some concerns? Is there any subtle thing still pulling my intellect?" There might always be things that I am not aware of like sanskars, karmic accounts, nature, or energies around me, but I have to really become free from all of that. Remove these influences completely, so that true connection, that loveful connection with Baba is created in such a way, that I get the power of silence. The soul, point of light, incorporeal, connecting with One who is also Incorporeal, the Supreme Soul. Then, I can experience the power of silence.

Om Shanti
