

Om Shanti everyone!

You all feel so happy to be with the family every evening. We need to look at the family, be happy, and celebrate together. Today, I had this thought, that there is not a single moment where the mind doesn't think, construct, or visualize constantly. Thoughts from here or there, thoughts from past, thoughts for the future, and it is the same with intellect. In the body, breath is very consistent, even if for one second, the breath stops, it's not good for the body. That means we have to accept that breath consistently, every moment, it is the same with thoughts. We want to be happy, we want to be peaceful, we want to stay healthy, so what we have to do is to take care of thoughts. So, for the health of the mind, and emotional health, every time, whatever happens, use a virtue, use love. Baba says that we should use the power of love, but also churning and reflecting on Baba's murli. When I used to stay with the Dadis, they would say that Baba said this, Baba said this. These days, I don't hear this much. They remember what Baba said, that is why their stage was so stable, so firm, with so much determination, and I think that's what we all have to achieve.

Farsightedness is actually when we see through the third eye of knowledge. Other people see everything just through these eyes, so when they decide or they have to do any action, they are not farsighted. Baba's children have the knowledge of the beginning, middle and end, also about actions, good actions, neutral actions, and negative actions. We have full knowledge, and that knowledge is in the intellect. It is the knowledge, or eye, of the intellect. Whatever we think and decide in our lives, is farsighted. Baba tells us that this world is tamoguni, iron aged, and whatever we do when it comes to the old world, there will be sorrow, and there will be laws. So, now when I have to spend time, or any investment, I can actually be farsighted in that I should not do anything where I would lose anything, or where I create a bondage. Most of the actions, and whatever we decide for that action, is coming from some karmic bondage, and that kind of settling means losing. So, we use the knowledge, the third eye, and we think from that, we plan our life accordingly, and plan our day even. It is very good to experiment. I think some of you must have churned on this. In silence, my capacity to be farsighted increases. There are certain situations where you just need to be quiet, silent. Don't say anything, so that some power will come from silence.

Today, I was wondering, when dealing with certain thoughts, Baba said to merge them or transform them, merging was not happening, but transformation happened. I realized I could substitute those thoughts with two good qualities, and I was very light and happy. I said, "Oh, wow, that's the solution, and that's the solution for everything," Baba said to use the power of love. Everyone is touched when there is pure love. Then, when we say something, as Baba said, there is no labor and everything becomes possible, nothing is impossible. We have to experiment with all of this. We also have to remain under Baba's canopy of protection. It was our homework to remain completely free from the influence of what we are seeing, and what we are listening to. Listening and seeing are very important, because whatever you see and hear, the images and voices keep coming back.

For tomorrow, the homework is to be beyond, then above. You all will reflect on this, and it's very interesting. Do you always have your spiritual form in your awareness? Brahmins will become angels, and angels will become deities. You have solved this riddle, have you not? Do you know how to solve riddles? In a second, become a deity from a Brahmin, and then a deity who goes around the cycle, becomes a Brahmin, and then becomes a deity again. Brahmin, deity, Brahmin, angel. So you always have the riddle of "hum so, so hum" in your intellect. Those who solve the riddle, get a prize. So, you have received a prize, have you not? Even in the future, you would not receive what you have received now. Now, you have received the prize, you have found the Father himself, and you now belong to Father. Compared to the future kingdom, this attainment is elevated. So, always continue to move forward with the intoxication and happiness that you are an elevated soul who has won a prize. Always keep the riddle and the prize in your awareness, and you will automatically continue to move forward. "Hum so so hum", brahmin so angel, angel so deity, brahmin so deity and then again, we went through the cycle. Keeping this awareness will help us to go beyond and above. In silence, keeping the awareness that I am a Brahmin, I am becoming a deity, this will help me to remain above and beyond.

Om Shanti
