

18 January 2021 – Bhog Message brought by Sr Mohini

Today we all, as rivers of love, were merging in the Ocean of Love. Everyone's heart was full of love for Baba. Baba was in front, giving *drishti*. In a few moments Baba opened his arms. When He opened His arms, some children wanted to be in Baba's arms and just ran to Him, but some children were still sitting wherever they were. Then Baba came towards them, as if Baba was asking them to come. Baba gave them His hand. Some were holding His hand, and some were taking *drishti*.

I said, Baba on behalf of *Avyakti Parivar*, I have brought *bhog* for you. With a lot of love Baba accepted flowers, fruits, *bhog* and whatever we had sent for Baba. Baba continued to give very loveful *drishti*. Baba knows that everyone has a lot of love for Baba. I kept looking at Baba with the subtle question about why everyone didn't run to Baba's arms. Baba smiled and said, all children are different; some run into his arms, some hold his hand, and some only want to take *drishti*.

Children have kept the good aim to be like Brahma Baba and to be in remembrance of Shiv Baba. You all are sincerely making your effort. Baba said, at this time all the virtues and powers should be merged in your thoughts, because it is with one thought that whatever virtue or power that is required can be created. Now is the time to merge all the virtues and powers in your thoughts, because the time will come when you will need to emerge the right virtue, the right power at the right time. You might not get a lot of time. It might happen very quickly.

Brahma Baba said, its one thing to have attention on not having wasteful thoughts but another to make each thought virtuous and powerful. You must pay attention to not wasting even a single thought. Which power do you need to not have a single waste thought? Baba said, this is the homework. Look at your chart. If any wasteful thought comes, think which virtue or power you need, whether you need love, tolerance or you need to adjust. Then pay a few minutes of attention to that power, so it is emerged in you. This is a matter of very naturally looking at virtues, donating virtues and cooperating with virtues and powers.

At this time, you have to serve through *sakaash*, give rays of light and might. Baba said the subtle energy that is in you, is in your attitude. Keep your attitude so clean and elevated that very powerful rays can quickly reach and give *sakaash*. So *sakaash* is not just through thoughts, it's through the attitude also. It will become very powerful and reach wherever in one second and be able to do the work, whether you are bestowing blessings or whatever you are bestowing. Through the attitude you will be able to do it. So, make sure that it's clean and elevated.

Now more and more this kind of service will be required. Even the words you speak will have that power from your attitude and your thoughts. Brahma Baba's quality of

effort was always consistent. He was always ascending and consistent. There was never a gap. He never stopped, even for a few moments.

The children have to keep this aim to be consistent in your efforts. Past is past. Whatever quality of efforts you made was then, but now looking at the time for both your journey and also in the world, it's very important to be consistent and Baba also said, "unlimited". Don't get stopped by your limits. Don't be limited; be unlimited, very generous. Because this is what souls need at this time. *Drishti* should be of blessings towards everyone. Through your *drishti* just keep giving blessings towards everyone.

Then Baba said, one important aspect is that you have to be detached. When you are detached you will be loving. It's very important to be detached from any influence, any energy. For any energy to work, it is important to be detached. Just remain detached and very lovely.

Everyone in their center or home should have one special corner or room. Whether you call it Baba's room or not. Whenever you sit to remember Baba, sit in that place, so the energy in that room or corner becomes full of that power. Whenever you have a few moments, or whenever you want to decide something, to use your power to discern or to find some answer, go to that corner or that room. This is Baba's advice to the children. You can sit and meditate anywhere while walking around, but it's important to have at least one place where you sit every time. And during the day when you feel the need of charging yourself, go and sit there.

Baba is very happy to see the sincerity of the children. Understanding and capacity is numberwise but love and sincerity is there. Baba is giving lots of love, power and blessings to all the children

I said, Baba, everyone had a lot of *bhavna*. Baba said, yes, everyone's *bhavna*, everyone's love, reaches Baba. Again, Baba opened his arms very wide, extending both arms of protection to the children. When you are in the arms of Baba, you are protected.

Then Baba gave love and remembrances.
