

Om Shanti

Baba wanted to stay with us, right? He came back, are you cheerful, yes! When the intellect is clean and clear, then our heart is also generous. Baba gave us the blessing and we are deeply feeling very joyful. Today, you must be seeing something different at the back because I came to Peace Village and we will show you all beautiful decorations, all over, big surprise when I came. Also, I am very happy to welcome all the guests, all the main instruments of the USA. We have our meeting of the USA's main instruments, but also we will be celebrating, so we will show you all that. I am very happy to welcome the guests to see that there is so much enthusiasm even most of them who flew are in quarantine but there is such a big space outside in Peace Village, so they can sit outside and eat outside. We are following all the rules and regulations of wearing masks and social distancing, because we all have to be safe. Especially these days we don't know, anytime anyone can get infections, so we are making sure that everyone is okay.

When a flower is blossomed, it makes us happy and cheerful. Even before knowledge, I always thought that when I go in front of God I should be very cheerful, because when I am cheerful, He will look at me and He will give me blessings. He will say to stay cheerful forever so I never, even if the body is not well. I always see Baba looking at me and giving me drishti. Also, I always remember Brahma Baba, and the opposition and challenges when they moved to Mt. Abu. So much was happening, and Brahma Baba's face was always cheerful. When there is purity, there are no doubts and no fears. There is also Baba's protection and our own self trust. We hear that a lot of people are very insecure these days. They think, "I have been given a task, maybe it will be taken away". Whatever I have, I don't know what will happen tomorrow. Subtly, it is like we are holding on to something or other as our support. When I am holding something, and I am not secure, then I cannot be cheerful. I may will look happy, but to be cheerful is like to be in full blossom. For this, always look at Brahma Baba's face. In this way, you will have Brahma Baba's face in front of you and also Shiv Baba. Whatever powers I have accumulated or experienced and whatever stage, like a bodiless stage, when situations come, I should use that power and also accumulate more power. For instance, if I am tolerating, I am not using tolerance, but I am gaining more tolerance. If you think from morning until evening how many scenes come in front of us, when we are cheerful, the lightness and energy stays. It's not like I am sitting in front of Baba and giving problems to Baba. As soon as there is remembrance of Baba, there is no problem! When there is remembrance, we call this our satopradhan stage or sato stage. The sato stage is like I am in remembrance and the energy is sato and becoming satopradhan. Deep within there is this trust and security.

Yes! Drama is beneficial. Baba is with us. I always feel that Guide Baba is with us. We are still on a journey, right? Yes!

The ancestor souls have reached perfection and they're playing their part, but the majority of us we are on a journey. With whom did we start this journey? Baba! Even from the Murlis, you can feel that He knows where we are, and He wants to guide us to go further, to take another step, and then another step. Baba's is present as a Guide in my life on this journey. Baba says that the Confluence Age is the age of joy, and it is at this time that we set ourselves on this spiritual journey. The soul is changing from tamo to sato, from impure to pure, from no degrees of purity to 100 percent purity, so it is a journey. Baba has shown how you have to do this journey, not only for yourself, but when you become satopradhan, then nature will become satopradhan and then world will become satopradhan. We sacrifice and start a new sapling. Deep within, we have the feeling of keeping the presence of Baba as a Guide. All of us begin our journey when we are like buds, but we know Baba as the light of knowledge, so we keep opening until we fully blossom. Besides, when anything comes, how quickly can I get over it? Many things happen, but if you just put your mind there, it gets absorbed. Otherwise, say that it's okay, it happened, move on. Don't take anything deep inside or ask why. It happened, let it go! Baba wants us to be cheerful. Dadi Gulzar always used to say that whatever happens everything can go, but happiness should not go, because everything could come back, but it is very difficult to get back happiness. When I really look at every scene and every act of all of us as Drama, everything changes, but all is beneficial, and I can remain joyful. When I came to Peace Village, everyone was so happy as if a big wedding was happening. Of course, when we are happy, we create things which are of happiness, even if I keep telling them you don't have to do that much, just be simple. However, when there is enthusiasm, there is joy, and you want to create more, so everyone can be happy. When you are cheerful you want to create beauty, and when you're not happy, you will say it's all right, whatever. You don't see anything as best.

We should take this blessing from Baba, a gift from Baba, as Baba said a gift from the Confluence age. Make a promise deep within to Baba, that you will always stay cheerful. That's what we want, because we still have to serve Baba and give Baba's message. With our cheerful face, anyone and everyone feels inspired. So, everyone just be cheerful and be very happy. Today is a good day and tomorrow will be good also, right? Always have very positive thoughts, and then those positive thoughts will also create a lot of inner joy.

Om Shanti!
