

God Shiva's third eye is the eye of the Supreme Soul and is renowned for its transformative powers. The eye of the Supreme Soul embodies truth, wisdom, and spiritual power and is able to see the past, present, and future. The opening of Shiva's third eye indicates the time when all forms of impurity are destroyed and a world of peace, purity, and prosperity is restored.

God Shiva is the ever-pure, transcendental ONE who cannot be contained by space, time, subtle or physical forms. The name Shiva has three meanings: "seed" the One who is always incorporeal, "point" the One who is an immortal image, and "benefactor" the One whose benevolence is without limits.

*The Secret of God's
Third Eye*

Feel in your heart, the spiritual gaze of Benefactor Shiva's Eye

Benefactor Shiva looks through the perfect lens of pure love and spiritual law and sees everything and everyone. With a vision of pure, pristine spiritual light -- nothing is selected or rejected, nothing is approved or disapproved, nothing is included or excluded -- everything is seen as is. It embodies the absence of discrimination, desire, and demarcation.

The Benefactor sees my true authentic self and accepts all that I am, all that I have been, and all that I will become.

Benefactor Shiva sees with elevated and divine vision. A vision that has the capacity to see with immense clarity the story of each one's life as they co-mingle in the web of human relationships and interactions.

The Benefactor looks at the full cycle of the law of action and knows that I am endowed with the freedom to choose.

Benefactor Shiva looks from the astral dimension, which is beyond the physical plane of existence. His ability to see is subtle and refined. It is a vision that cuts through illusions and sees clearly the invisible interplay of thoughts, feelings, and intentions with complete perception and accuracy.

The Benefactor connects to the soul and understands all my feelings and intentions.

Benefactor Shiva's gaze is like a single beam of concentrated energy. This energy is called *shakti*. Remembered as the gaze with a thousand prisms, this *shakti* vision sees the invisible, the incognito, and the inherent dynamics of soul and matter.

The Benefactor's shakti embodies purifying properties, through which I, the soul am cleansed.

Reflection

Looking into God Shiva's Eye awakens the inner gaze of souls with divine insight.

Pure rays of Light
cleanse souls and matter
to reveal the radiant dignity
of all living beings.

This One sees into being
a golden world
and ignites sovereignty
in human hearts.

Within the sacred space of
the soul,
there is the feeling of
love at first sight.

Our eyes open onto
all of time...
the past, the present
and the future.

We find protection from doubts,
freedom from fears,
strength to forgive and
Light to blaze the trail
of victory.
