

News of Shantamata of London

Dear Brothers & Sisters,

Greetings of love. This is to give you news of Shantamata Mistry of London, Baba's child for over 40 years who flew into Baba's lap in the early morning hours of 30 May. She was aged 91. A few days prior to departure Sr Jayanti and others had spent time with Shantamata in Baba's remembrance and just hours before departure three generations of her lokik family had gathered around her, so the soul took leave in an atmosphere of great love.

Shantamata came to Baba in 1976 at Tennyson Road. She introduced Baba to nearly all her family members (80-90 people) and inspired them to stay close and co-operative with the yagya. In fact, both Shantamata's daughter Manjuben and son-in-law Nagin Bhai have been daily murli class students from those early days. It was Nagin Bhai who was the instrument for Baba's London family to have murli class in Dudden Hill Community Centre for many many years.

Shantamata as well as being a keen and accurate student was a dedicated sevadhari in Baba's Bhadara. For many years every Thursday she would make a special toli called *Peda* for Bhog. Whilst poor health in the last few years of her life prevented her from physically being able to be present in Global Co-operation House, it didn't stop her from staying close and connected, as every single day, without fail, she would listen to a recording of both the murli and the murli revision that had taken place in Global House that day.

Shantamata had many many friends and one of those was Dadi herself, who had a special place in her heart for Shantamata. She was affectionately called "Baa" by both the lokik and alokik family and her great grandchildren in fact, called her "Om Shanti Baa".

We send all our good wishes and love, in Baba's remembrance to such a special soul. A photograph of Shantamata is attached

***With love,
In Baba's remembrance,
BK Jayanti***
