

Beloved Avyakt image, Mother and Father, BapDada's deeply loving instrument teachers, and all brothers and sisters who are the decoration of the Brahmin clan, ones who become complete and perfect with their pure and elevated attitude always, ones who are stable on the globe of the world and with their angelic form, donate the powers of the mind to all souls, ones who are yogi and experimenting with yoga, please accept love-filled sweet remembrance.

While hearing news of the land of Bharat and the lands abroad, all of you must be having special yoga at your own places. At present, our sweet Ishu Dadi and many brothers and sisters of our Brahmin family are receiving treatment in the hospital. Some members of our Godly family have suddenly shed their bodies through the illness of corona and gone into BapDada's lap. Everywhere, there is the atmosphere of insecurity and fear.

At such a time, our sweet BapDada's signal for all of us children is: Children, at the time of this illness, the power of your yoga and the vibrations of happiness will work like medicine and with your courage and the power of your faith, God's co-operation will be like blessings. This is the method to pass through this difficult situation.

Today, I am especially writing this letter of remembrance to all of Baba's children, that all surrendered brothers and sisters at the centres and all those living in their households, please make time from your daily timetable and make a programme to have such yoga tapasya in which, each one has at least 8 hours of yoga every day. Let every service place become a light-and-might house. Let each one, with their double light angelic form, do the service of giving subtle sakaash with your mind to the elements and all souls, and with the setting of your viceless stage, protect yourself and also help the whole world.

With these good wishes,
In Godly service,

B.K. Ratan Mohini
