

## News of Sister Anne of Holland

Dear Brothers & Sisters,

Our sister Anne was in her late forties when she came to the Brahma Kumaris and instantly recognised the essence of truth and love. She then spiritually surrendered herself to Baba and service.

Anne has been an example of a soul with pure intentions and a lot of love for a spiritual lifestyle. With great precision, she followed Baba's Maryadas, not taking anything for granted or considering it to be negotiable.

Her purity, cleanliness and love for perfection made her into an accurate instrument for others at several BK-centres where she served for over 20 years.

With her lightness, dry sense of humour and her ability to put things into perspective she managed to live a life of fulfilment, contentment and happiness.

Her immense love for God and service and her strong commitment to the task brought many treasures to the yagya. She supported Madhuban and the international yagya in a practical way by contributing to a number of projects.

A few years ago, Anne was diagnosed with cancer. Last year, when the disease had spread to other organs, she eventually had to be accommodated in a hospice for palliative care. During that time, she was surrounded by her spiritual sisters making sure that she got pure food to eat. They were meditating in her room and sometimes even through the night.

However, after 3.5 months she managed to return to Baba's House in Arnhem and was able to serve there till her last breath.

On the 10th of May the soul left peacefully, totally ready for her new service task, carrying the fruit of her selfless service with her.
