

Sister Josette

September 5, 1926 – October 4, 2020
Amsterdam, The Netherlands

*Like a butterfly
attracted by the sun
transcends her cocoon
my soul frees itself
from the earthly weight
ascending to the
Loving Light*

Sister Josette came to Baba in 1982, a few months after her daughter Jacqueline and soon followed by her son Bob. She has been a silent image of support of Baba's Yagya, often incognito and always with humility. Our special sister and BK-mother remains in our memories as an extraordinarily loving, powerful, courageous and independent soul. Her down to earth attitude was well balanced with an elevated sense of divinity. Her high quality of purity was visible at all levels of her dignified life. She always said that she was living her life in peace together with the Angels. Josette has been to Madhuban 19 times, journeys she paid for herself with cleaning jobs she had to take up after her divorce. Her life has been entirely at the service of others and the world. Until her departure at the age of 94 she lived alone and took care of herself. The atmosphere in her apartment is one of peace and loving Remembrance of One.
