

Let us redesign our lives

"Life is not a problem to be solved rather It has always proved a wonderful experience for those who could rediscover the basic design principles of life". Today we have amazing mega structures, huge machineries, seven wonders of the world which surprise us in such way that we wonder whether these are the products of our human mind only. But the life of the creators of these wonders, popularly known as *Architects*, is not as wonderful as their creation is. There is no design problem more challenging than figuring out "How I am going to make my life truly happy". This needs powerful insights and design thinking to make joyful, satisfied and successful living. Raja Yoga meditation is a powerful thinking design tool which brings positivity in our perceptions and gives us the power to face the wicked problems of today's life.

Every religion is complete in itself. If we want to make a peaceful and happy world we have to adopt the qualities and teachings of all the religions.

- Learn depth of knowledge from Hinduism
- Learn being powerful from Muslims
- Learn love from Christianity
- Learn non-violence from Jainism
- Learn purity from Sanyas Dharma
- Learn peace from Buddhism
- Learn dedication from Sikhism

and this way by accepting the goodness of every religion we can make this earth a better living place for each and everyone on this planet.
