

Mama's bhog message by Shashiben – Madhuban 24th June 2019

Om Shanti. Today, on the day of our Beloved Mama, as soon as I reached the subtle region carrying love and remembrance of all of you, there was a very beautiful decoration of lights in there. Just as you see the sparkling stars in the night sky, in the same way, in all directions, there were many different types of sparkling stars, and in the midst of them was a very big star. The light from that star was of a different type. I was seeing that within just a few seconds, I could see sakar Baba there, and as he came closer, he said: Daughter, you have reached here. You have brought remembrances of all the children for their mother. I said: Baba, today, all the children are lost in the mother's love. Just then, I saw that Baba who was visible was hidden behind the star, and in the middle of the star, I saw Mama's form. A very beautiful form of Mama was visible and all around there were rays of mixed colours of golden, yellow and pink – emerging from that star. What did I see then? Many children were visible in front of the mother, and they were standing there in the form of a half-moon, and Mama is giving everyone and everyone had tears of love emerging from their eyes. As the tears were falling, they were becoming beautiful garlands around each one's neck. All of it was looking very beautiful. Then Maa said: Children complain to the Mother, and ask: Why were we not able to see Mama? Mama said: A mother is a mother and no matter where you may be, a mother sustains and guides her children no matter where she is. In this way, the mother is not separate from the children and the children are not separate from the mother.

Then Baba showed a scene. There were three platforms. On one platform, sometimes was visible Maa, sometimes, Saraswati and sometimes there was the veena of knowledge visible. On the second platform the form of Lakshmi was visible. On the third platform, the form of Durga was visible for the devotees. In front of the first platform, all Brahmins are coming were coming in front of Mama and each one was feeling as though Mama is taking each one in her lap and on each one's hand was Mama's hand of blessings.

In front of the second platform, in front of Lakshmi, devotees were folding their hands and saying: O Maa, give us a vision and fulfil our desires. It was as if rays of light were falling on them and their aprons were being filled with a little of something.

Those who were standing in front of the third platform, it was as if someone was asking for power and someone for something else. They were not receiving light from the side, but it was coming from one side and disappearing into the other side. I was watching this scene and in a short time, I saw a whole group of stars, and within that group, I saw the souls of the advance party. They surrounded Mama and then were speaking very beautiful things with Mama. I was listening to them. Mama was telling them: We want to carry out the task of establishment at a fast speed, and we have a lot of co-operation from those who are here now, but in order to now go at a fast speed, there is a need for something more. They were talking amongst themselves, and then Baba came in the middle of them and they were watching each other. Some from the advance party were asking Baba: Baba, when will this task of ours be accomplished quickly? Baba said: Ask Maa. Mama was standing very quietly and with her eyes, she signalled towards Baba. Baba said: Baba also has a heart to heart conversation with Mama about the children and both Baba and Mama see that children are making very good effort, but see that the children are so much more extrovert. Then Baba said: Just as Mama became introverted and made so much deep effort, so according to the time, children are moving towards extroversion a lot more, and secondly, there are many more external obstructions. And obstructions means the influence of external things and when these are used for service, they create obstacles every now and again. So, if children pay special attention to their renunciation, tapasya and concentration, then all the external facilities of service you have will become your companions. You are making the external facilities of service your support, but instead of becoming your support, they are running further away. So, what did Maa do? She did tapasya and on the basis of tapasya, all the facilities became has companions. Baba said: We have a heart to heart conversation about tapasya. The other thing that Baba said was: what was the speciality of Maa? She was always obedient. She always said: Ji ha (yes indeed). And because of being obedient, she received all rights and because of having these rights, she became the embodiment of success and because of that success, the whole world is remembering Maa. And they also pray to Maa to have attainments of such success.

Because Maa was obedient, she won Baba's heart, the heart of the children and she made every task of the yagya strong. So, children obey the instructions they are given, but they also add the dictates of their own mind to that every now and again. Baba said: Children follow shrimat, but then they add their own dictates, this creates a mixture in the instructions due to which they are not able to take full benefit. Mama was listening with a lot of attention, and with the signal of her eyes, it was as if she was saying: Baba, let the task be accomplished quickly and the children quickly move towards perfection.

Then I said: Today, children have sent their remembrances and I have also brought bhog. As I placed the bhog in front of Mama, Mama was giving drishti and looking at Baba. Then Dadi picked up some bhog and fed both Baba and Mama, and then Baba signalled towards Mama. Mama said: You feed everyone. Baba said: No, today it is the day of the Mother and so the mother will feed all the children. So, she first gave bhog to those of the advance party. Then, after that, all Brahmins were visible, and as Mama spread out her arms, the bhog reached all the Brahmins. As the bhog reached all of them, it was as though it was as though a crystal came into their lap. Very beautiful light was emerging from that crystal and on those rays of light were the words: My Baba, I am Baba's. Ji Baba. I have a right to Baba. Something was written on each ray. As that crystal reached each one, they were all watching that, then Baba asked: What did you give them? Maa gave a gift to all the children? All the children were also very happy. Baba asked: Why did Maa give everyone a crystal today? Each of you children have to remain absolutely clear and have clarity. You have to remain clear to the Father, and not have any mixturity. When you have clarity, you will be able to claim all rights from Baba, you will be able to merge Baba in your heart and you will be able to reveal the Father. Then in that crystal Brahma Baba was visible again. Then "My Baba, I am Baba's". I saw that much and then Mama was giving drishti to everyone. I said to Mama: Mama, everyone is still remembering you. Mama said: Everyone's remembrance reaches me and Mama also gives a return of that remembrance, but because children do not have that clarity or clear connection, they are not able to have a deep experience of that remembrance. If children keep their connection clear, then children will be able to do whatever Baba carried out through our Maa and also become a form like hers. Then I gave everyone's remembrance. Those of the advance party were smiling and they said: This is what we all also want. So let us all move towards clarity, and if everyone continues to make their own effort to accomplish the task, then the task will be accomplished quickly. I then gave everyone's remembrance and came back.

***** OM SHANTI *****
