RIGHT MEANS TO THE RIGHT END!

As the amount of available resources deplete and no. of consumers increase there is always a tendency in the world to project, manipulate exaggerate and to use shortcuts to achieve the end. Looking only at momentary benefits to win the present battle, we eventually lose the war. We forget that 'letting go' of the urge of competition is the key to the door to abundance. And in that process of

pushing oneself ahead of the competition, there is always the danger of overlooking the real gems that actually makes us win the battle - delaying momentary gratification for a higher good, earning the goodwill of everyone on the way and the give and take of values which enrich us in the long run.

This is the philosophy which inspires us and what we apply in Godlywood Studio during all phases of TV Production - whether brainstorming for new ideas or casting the artists or building the technical team as we move forward in the path of serving the World through innovative digital media initiatives.

I am glad to announce that for the first time in our service history, a giant Music Company has agreed to telecast Brahma Kumaris songs – 15 Songs written, composed & recorded in Godlywood Studio at par with Industry standards has been selected by Zee Music for their 'Devotional' Segment. We have been upgrading ourselves for many years for this to happen and the efforts have finally met success! Instead of making us complacent, we will make sure this success will add fuel to the fire of innovation and make us stretch our abilities. Music Godlywood is available on online Apps like JioSavan, iTunes, gaana, Spotify, Amazon, Wynk Music & Zee Music.

Find the usual articles of your taste, and always continue giving us feedback suggestions and of course your word of appreciation. Looking forward to meet you in this space in the next issue, let's keep the spirit of service alive!

And my dear friends, I wish a very happy Diwali and New Year to all of you and to everyone you care for. Let the festival of Lamps bring more & more light to your lives. May your every day be auspicious, your whole life be prosperous and the boundless blessings and love of the supreme almighty shower on you all the time!

With Warm Regards

SPIRITUAL CAMPAIGN FOR A HEALTHY INDIA

JAGAT PRAKASH NADDA

The Working President of the Bharatiya Janta Party since June 2019 and the former Union Minister of Health and Family Welfare, Jagat Prakash Nadda is a member of Rajya Sabha from Himachal Pradesh and Parliamentary Board Secretary of Bharatiya Janata Party. He shared his thoughts on the present social scenario regarding health and the role of Brahma Kumaris, during his visit to the Headquarters. Extracts from his speech:

“Health and development are intertwined – healthy people generally have longer lives, and are more productive, enabling them to earn and save more, therefore contributing to the nation's prosperity. Our Government realizes the value of healthy citizens and has thereby made special sanctions for the same in the Union Budget.”

“The relationship between spirituality and health is a new frontier in medicine. This study is a preliminary investigation into the relationship between a patient's experience of overall health, physical pain, and intrinsic spirituality. The technological advances of the past century tended to change the focus of medicine from a caring, service oriented model to a technological, cure-oriented model. Technology has led to phenomenal advances in medicine and has given us the ability to prolong life. However, in the past few decades physicians have attempted to balance their care by reclaiming medicine's more spiritual roots, recognizing that until modern times spirituality was often linked with health care. Spiritual or compassionate care involves serving the whole person—the physical, emotional, social, and spiritual aspects rather than treating just the disease. Such service is inherently a spiritual activity.”

We have been working tirelessly to improve health care systems and services towards providing a better quality of care to people

in sync with Government's well-enunciated priority for 'Antyodaya'- reaching out to the those who need it the most towards shaping a holistically productive and developed nation.

It has become increasingly clear in recent decades that lifestyle factors contribute significantly to the ever-growing burden of chronic disease. Two behavioral patterns in particular, diet and smoking, have especially potent effects on the health of individuals and communities. As our understanding of the factors that affect health improves, our health care system must align with this knowledge—researching, teaching about, and striving to reduce preventable illness.

“While applauding the selfless services of Brahma Kumaris, he said that this organisation believes that every action performed by a soul will create a return accordingly, and that the destiny of the soul's next body depends on how it acts and behaves in this life. Through meditation, by

transforming thinking patterns and eventually actions, the Brahma Kumaris believe that people can purify their "karmic account" and lead a better life in the present and next birth.”

In recent decades, life style change as a deciding health promoter is more and more researched by scholars. According to WHO, 60% of related factors to individual health and quality of life are correlated to lifestyle. Millions of people follow an un-healthy lifestyle resulting in illness, disability and even death. Research has proven that positive thoughts sustained over a long time produce positive health effects, while negative thoughts ultimately lead to diseases. The teaching of Brahma Kumaris also give a clear indication that way. In that case, it's necessary for us to give our mind a positive direction so that we can always remain happy and healthy. I am blessed to visit the headquarters of Brahma Kumaris and deeply appreciate the service of the organisation worldwide.

OPINION CORNER

I treasure what I learned in this organization. The education imparted here, though visibly spiritual in content, is a happy blend of ethics, practical psychology, metaphysics or philosophy, the gist of world history and culture, sociology, political science and, in fact, many other subjects. I learned how I can be motivated naturally without always seeking external motivation. And that is my biggest takeaway from Brahma Kumaris.

There are deep rooted causes that impact our relationship with the self and others. Understanding ourselves better is the key to understanding others and enhancing our relationships with them. I am happy to see all the BKs here in the headquarters who have discovered the true meaning of love and connect heart to heart with people. This place is next to heaven as the humans here are human body with divine soul.

Brahma Kumaris is promoting the qualities of humanism and tolerance by spreading the knowledge of truth in every sphere of life. I deeply appreciate its holistic approach that develops individual from inside by empowering oneself. The institution imparts knowledge and experience that enable a person to face the problems of life in a calm, composed and confident manner. Such a person can lead a life of inner satisfaction and kindle faith and goodness in others and can bring honor to the nation.

ZEAL, ENTHUSIASM AND GODLY SERVICE!

BK Sowjanya
Anchor

It was the close association of her mother and maternal uncle with the organization that drew Sowjanya to Brahma Kumaris from early childhood. Entertaining the spiritual family with graceful dances on special occasions, Sowjanya also started attending spiritual classes as a child at the Brahma Kumaris center in Andhra Pradesh.

Deeply influenced by the serenity of the Headquarters during her first visit in 2001, she made it a point not to miss even a single annual pilgrimage since. Her longing to spend more and more time in this spiritual sanctuary was fulfilled when she got enrolled for B.Sc Optometry in the Institute for Ophthalmology at Global Hospital & Research Centre managed by the organization.

It was her tenure of study at the HQ that sowed seeds of service in her young mind. Attending community

eye care programs and serving the rural community fascinated her and she enjoyed helping school children, educating them how to take care of their eyesight. Eventually she was offered a fellowship in the renowned L.V. Prasad Eye Institute, Hyderabad.

She quite accidentally discovered her talent and passion in anchoring when she was auditioned for telugu Talk Shows in Godlywood Studio. 'Amrutadhara' is a shining example of her interactive ability to bring out the best in Brahma Kumari sisters. She also took the challenge of interviewing eminent and highly successful personalities from different walks of life in the show 'Mukha Mukhi'. 200+ episodes to her credit and still counting, Sowjanya is all set to take off in life, rooted to the espoused values of the organization and inspired by the idea of selfless service. Her interests also extend to doing roles in spiritual theatrical plays, dramas and Short Films. TEAM Godlywood wishes Sowjanya all the very best for a future full of opportunities, filled with joy and laughter. May almighty bless her with all that she deserves.
