

Om Shanti everyone!

When I look at these slides, the colors are so beautiful, pink and light blue, very beautiful colors! Where do we get colors? Can anyone tell? From nature, right? Different flowers, different trees and all the colors really are from nature. In the fall, these days in certain areas, there are beautiful colors of the leaves. In Peace Village also, this time is very beautiful. Yesterday, in the bhog message and even today in Murli, Baba is talking about accumulation and stocks. Think, what we will not do for the body, for our livelihood, then we start stocking up on a lot of food. Baba wants us to stock up on the sanskars of peace, love, power and knowledge. How do we stock that? What is the way really? Today Baba is seeing that our accumulation is low. So, we should reflect, we should churn on what is low? How quickly does any situation affect me? Do I lose my peace, love, and power? When real situations come in the lokik world, we will have to use a lot of tolerance, and power to face, to adjust to whatever the situations are? What keeps you okay, is your power of tolerance. One is tolerance in a physical way, another is tolerance internally. I give good vibrations, instead of looking at the sanskar of the soul, so that the soul can get help. As soon as we look at the sanskar of the soul, I feel it is like a thorn pricks you. When a thorn pricks you, you start limping, then your own stage and thinking gets disturbed.

These days we have to be very careful. Baba said that our karmic accounts are different from lokik people, because we have been adopted by Baba, we are in the Confluence Age. So, our calculations of karmic accounts are different. As Baba says, we are trustees, so we have to use every moment, every second, in a worthwhile way. I think it is necessary for us to start thinking about how I can accumulate, what I accumulate, and what I will need more, because we accumulate and stock things according to our need. We should take this seriously, but not under pressure, just check and pay attention during the day because as soon as something happens or someone says something, we all start thinking. So how will this help? If we all remain strong with Baba, this can quickly help that soul to pass whatever obstacle or eclipse.

If one is not happy because of any reason, why should we lose happiness? But it does happen, right? So, we are not able to save anything. Baba says that saving,

accumulation, and stocking is very important. This is what the third eye, the eye of knowledge, really is. I can see more in the future than the present, whether it is a soul or a situation. There is farsightedness and as Baba looks at everyone, the stage of completion, perfect stage, and I also have to do that. As soon as you do that, you are able to help the soul to regain, to reclaim, whatever had been lost. I think it is very important to think about accumulation, because Baba has told us the future. There will be a lot of situations, the main effort is to change knowledge into awareness and have that power, so that you can pass with honors.

The power to face is important, you know victory and defeat, praise and defamation, we know these come as a test for us. This victory gives us this beautiful smile on our face, because we know that ultimately victory is our birthright, success is our birthright! Baba wants the children to be mahavirs. Whether it is the powers of awareness or any powers, my personality should be royal, my personality should be of divine virtues and very stable, unshakable and consistent. So, of course, there is a good percentage, but there still might be a bigger test, right? There shouldn't be any fear. We know, we will face it, we will win, and we definitely will become victorious. So, there are some of the points, we all need to reflect on. Morning time is very good and Baba's power, Baba's hand of shrimat, Baba's blessings are with us, because Baba wants to take us with Him. At least we have to walk with Him. If you have to go with Baba, you have to walk with Baba, stay close to Baba, so Baba can take us with Him.

Om Shanti
