

Sudesh Didi – 9th January 2022 Family Greetings - GCH, London

Om shanti. Om shanti. Om shanti.

Good morning, golden morning, diamond morning to the sparkling diamonds. I know all of you are happy, as much as I am happy to meet my family after quite a long time. It feels a very long time though it is not very long time because about five days before the operation was final. At Amrit Vela time, in Baba's room, Baba told me, "Child, there is going to be a bhatti for 40 days. I told Sucharita, "Today Baba told me that I am going to have a 40 days' bhatti, but which bhatti. So that was the bhatti. That became very clear then. Then 10 days isolation before, and then 21 days - 22 days already in the hospital. And then then 10 days isolation again. And I know that everyone is so eager to say hello, to say om shanti, as I am eager also. Somebody comes, I said yes, yes come in. And then sister said no. Mary specially, "No. Not allowed." So it's important. And I thought I will. I'm fine. It's okay. All right. So, from a distance it's okay. Because it is laws of the government as well for safety as well. So I said I can meet the family from the stage, with each other.

It was with everyone, those who have sent so many greetings from all over the world, not only just from the UK, Europe, London. Everyone's good wishes were gift-like. And Baba did His work, magical work, using doctor's hands, touching the instruments. How it became, I don't remember. I don't know that there is an any kind of procedure done to this body. I slept. I know that time when the doctor himself, brother Prakash came the morning, eight o'clock. I said, "What, it is one o'clock." He said, "No. We would like to have (the procedure) in the morning, the first one." So, within five minutes, I had to get ready. And I only remember leaving the room. I was there and went to him and came back. So slept and woke up, feeling nothing. I only know because I had gone especially for the special repair institute, very very practical one. And they would definitely have repaired something. And only after the third day, when they were dressing me, then I understood that the work was done, and this patchwork is done. Otherwise, there is no sign of anything because it's Baba.

The thought that I am going to Dilaram's House, heart, *man ka dil*, Dilaram, the One who gives comfort to everyone's heart. And so, I'm going to Dilaram's. And He is the Remover of all kinds of blockages, bondages, and it was in the murli as well. After the second day, was a very special Murli. Baba has come to give liberation of every kind. And this is a new birth, new consciousness.

Actually, I became happy when doctor came the last meeting before the operation, in the hospital itself, they gave the date, 13th. I say, Oh, nice new life, whatever it is date is fine. I told them my physical birthday is 14th. So Baba had to give the new birthday on 14 December. And 14th December is a new life for Godly service. And I felt that it is Dilaram Baba, where I am getting Baba's blessings and everyone's blessing. But it was a service place, actually, because the doctor himself would come every day morning and, with him, two to three other doctors. One or two nurses also, and every time, I gave blessings. It became a system. Good morning, the nurse would come, "I am on duty, this is my name." So good morning, and I say, "I give you good thought for today." So every time, as many nurses, came on duty, they all got Baba's blessings.

So for a few days, it was a very good chance, but a good experience as well. How much tension is there. So much tension in the ward for after-operation, the emergency. I think because I had to do these, I also had to stay there. People, not only the patients, but even the doctors are in a panic. Every moment when lights were on, I was just watching, watching the drama. Why Baba has come? He has come to give power and happiness to the souls, and take away the tension and fear. And so, then, really good connection and service for the doctors and nurses; friendly relationships.

It was also the suggestion from the doctor that it was better to stay longer in a separate room, a separate place, for safety because of Corona, COVID. It's good, that I stayed longer in hospital care. But home is home, no matter how I stayed longer, according to drama, but when you come back home, you feel home is heaven. Home is happiness. And so, I am very happy

to come back home. And that was a temporary place for service, but it was actually doing a service or being in Dilwara temple so that the service can be given happiness to everyone.

So, Baba has given a new life, and certainly, one message (advice) again and again, that is to give rest to the voice, *vani ko araam den*. Give rest to the speech and Baba says, "Now, do service through sweetness, through smile, through drishti, the power of silence." The drama has forced me to speak less... (Sudesh Didi laughed).

And so, this is why, it is good Baba is giving us so, much already in the Murlis, The Bestower of blessings. Baba, the Giver, the Donor, *Daata*, *Vidhata*, *Vardata* (Bestower, Bestower of Fortune, Bestower of Blessings). What else do we need? All His wealth, treasures, powers, inheritance as being the children of the One. So, we are children of *Daata*. *Vidhata*, He gives a method how to use, how to become capable, to be sensible to use the treasures and to follow Satguru's Shrimat, so that you can get the blessings. And so, *Daata*, *Vidhata* and *Vardata* is giving very powerful signal of what our state of mind should be, preparing the self and also preparing others, empowering others.

When we are powerful, only then we can give power to others. When we are strong, we can become an inspiration for others, but with no fear of anything. Today Baba says, the whole world as, in the Gita, the whole world is dead, no fear of what is going to happen, but immortality is our birthright. We are eternal images of Baba.

So, Baba is giving power, Baba is giving love, Baba is giving happiness. And thanks to everyone, to the whole world, to all the families, those who have actually empower the atmosphere. The doctors would also have got this vibration and Baba worked through them. Also, very lovely, very special souls because of the telephone, Banarsi bhai, and Banarsi bhai said, "According to Drama, the 'car' has to be London. Otherwise, we offer in India. And then Dr Prakash said, "It's my fortune. It's my fortune that I could serve you." And this is what how Baba practically does His service and gives the feeling of Karankaranvanhar doing His work.

So past is cleared. Now it's time to do different level of service. This is what Baba wants to do. Let us see in the Drama. Every day is a new scene. Thank you. Thank you, Jayanti bhen, for giving all the information to everyone. The whole family got news from time to time. Very clear news. And I get so many emails saying, we got this news from Jayanti bhen. We get this news. So thank you for everything. Okay. We are offering bhog together.

(Sister Jayanti:) Thank you to Sudesh Didi, for her courage, her faith, her love, and also, her enthusiasm, which as you can see, has multiplied. It hasn't been reduced in any way.
