

Brother Charlie's Visit to Singapore

4 May to 10 May 2022

After two years of dry spell, in terms of having barely any spiritual gatherings for the BKs due to Covid lockdowns, we had our first bout of fresh air with Brother Charlie's recent visit to Singapore. His stay with the Singapore family from 4 May to 10 May 2022, revived many 'live' programmes, both for the public as well as onsite classes for BKs.

1st public programme after 2 years of Covid

To kickstart the line-up of events, on 5 May 2022, Charlie bhai spoke on the topic 'Adaptability – A Personal Skill for the Current Times' to an audience of about 160 at the Lifelong Learning Institute. As Singapore had only opened up in the last week of April, it was heart-warming to see many new faces at the talk – many of whom shared that they had benefited immensely from Charlie bhai's session.

On 6 May 2022, Charlie bhai conducted a talk via Zoom to a group of professionals from Tetra Pak South East Asia on the topic of 'Inner Stability in a Changing World.' The talk was well received and more than 88 joined in the online programme.

On 7 May, a private event was organised at Costa Rhu Condominium to reach out to expatriate Indians in that vicinity. Charlie bhai shared many tips on 'Effective Approaches to Managing Uncertainty' with the participants at this exclusive event.

Specially to quench the spiritual thirst of BK brothers and sisters, onsite Murli classes were conducted at

the Civil Service Club @Tessensohn over the weekend. Much to the delight of the 160 BKs, some of whom were stepping out for the 1st time in 2 years, Charlie bhai shared many deep aspects of knowledge after Murli on both Saturday & Sunday. The Q&A session that followed satiated the burning questions of many, especially the newer students.

Not only did Charlie bhai's light & warm interactions boost the zeal and enthusiasm of the Singapore BK family, but his gentle yet powerful presence has also inspired many

newcomers, especially the Zoom babies to gallop ahead on this spiritual path.
