**Recognise the different forms of Maya with the power of discernment and become victorious jewels.**

**(Dadiji's Pure inspirations – 21/05/2022)**

Beloved Avyakt Image Mother, Father, BapDada's deeply loving instrument teachers, brothers and sisters of this land and abroad who are the decoration of the Brahmin clan, ones who always recognize the self and others with your clean and clear intellects, who with the awareness of being master almighty authorities recognize the different forms of Maya and always become victorious and who have a constant and stable stage, please accept sweet Godly love-filled remembrance.

According to the time, BapDada is giving us children the special signal to constantly have a constant and stable stage with the practice of concentration, and this is why no matter how many biggest of all situations come in front of you, do not waste your precious time thinking "What happened? How did it happen?" Do not confuse your mind with any type of questions. By being in the awareness of a master almighty authority any situation will be experienced to be like an ant.

Baba says: Children, now recognize the final attack from Maya and always be victorious. To be a conqueror of obstacles on this Godly path, increase the powers to discern Maya and to make decisions, because at the present time, Maya is opposing you, having created many royal Godly forms. In order to recognize her, you need concentration, the power of silence. So now, each one has to sit in a bhatthi of such deep silence and with the practice of concentration, create an unshakeable stage in the midst of upheavals. In order to experience the pleasure of tapasya, Baba has reminded us of two words: 1) dot and 2) not. Whatever has happened, put a dot to it, and whatever is of no use, put a not to it. If you maintain the awareness of these two words "dot" and "not", your stage will always be constant and stable and you will experience an easy yogi life.

Now, being the season of very hot weather, brothers and sisters of all Wings are tirelessly doing their service. Everyone's aim is to now give each person Baba's message and close the chapter of service. While doing service, simply pay attention that your stage never fluctuates. For this, while carrying out actions, in between, practice applying a brake to the traffic of thoughts or doing the spiritual drill. Performs actions as a karma yogi and be detached from the consciousness of the body. Then, no action will take on the form of a bondage. For service, come into the relationship of karma and then become detached.

At present, brothers and sisters from everywhere are coming with a lot of zeal and enthusiasm to have programmes of yoga bhatthis in all the places of Madhuban. In Manmohinivan, yoga camps are taking place for new souls in contact and relationships and also programmes of the Wings. Anyone who comes to Baba's home goes back fully refreshed and full. This place of Baba's tapasya continues to attract every soul towards itself. All brothers and sisters who come here have very beautiful experiences of direct sustenance from BapDada and the instrument souls. Achcha.

Lots and lots of remembrance to all,

In Godly service,

B.K. Ratanmohini

**In order to pass in the final test, increase the power to discern.**

- 1) As you progress further, many tests will come and in order to pass those tests, you need the power to discern. If you are unable to discern what type of obstacle it is, in which form Maya has come and why that obstacle has come in front of you, you will fail in those tests. When you have good discernment, you will be able to pass.
- 2) In order to face obstacles, you first need the power to discern and then the power to decide. You have to decide whether something is Maya or something unreal, whether it is beneficial or damaging, whether it is temporary attainment or permanent attainment. As well as discerning, if you make the correct decision, then you automatically develop the power of tolerance. Those who have good power of discernment can never be defeated.
- 3) When any situation opposes you, at that time, do not waste your time thinking “what happened or why did it happen?” Do not confuse your mind with problems. Always think: Whatever happened is full of benefit and has service merged in it. It may have the form of a circumstance, but it has service merged in it. By thinking in this way and looking at it in this way, you will always remain unshakeable. With the awareness of being a master almighty authority, the situations will be experienced to be like ants.
- 4) Now, the time coming is such that you will definitely need the power to discern. This is the main method to achieve success in service. The sharper your power to discern is, the greater the success you will have. Because of not having full discernment, you are not able to provide others with what they want nor are you able to awaken their fortune in the way they want, and this is why there isn't as much success in service.
- 5) Together with knowledge and yoga, you also need to know the horoscope and astrology. When any person comes in front of you, discern in a second their three aspects of time. What was his life in the past, what is his vision and attitude at present and to what extent can he create his reward for the future. You need to increase the power to know and discern this now.
- 6) In order to increase your discernment power, the line of your intellect has to be very clean. The intellect will become clean when you don't have any thoughts against the codes of conduct. From amrit vela until night time when you go to sleep, let your every step be according to the codes of conduct, even your awareness, attitude and vision have to be according to the codes of conduct, then your clean intellect will be able to discern yourself and others easily. Along with the power to discern, if your decision power and power to resolve everything are good, you will be able to face all situations.
- 7) In order to increase your discernment power, your heart has to be clean. Along with that, you also need to have the power to put a break and the power to steer your thoughts. Those who have both these powers will not waste the power of their intellect. Instead of wasting your energy, you will accumulate it and to the extent that you accumulate it, accordingly the powers to discern and decide will increase.
- 8) When you go anywhere in the world to carry out a task, you have to have connections with the devilish community. By having the practice of discerning, you can be victorious in many things. Do not consider the practice of discerning to be a small thing. You can claim a number based on this. By discerning any situation, or souls with any type of thoughts – by discerning both aspects of time, their present and their future, you will be victorious.
- 9) Be master knower of the three aspects of time, an embodiment of knowledge and check your own horoscope and look at your future. By doing this, you can change your name, your omens and your lines. After discerning and checking, adopt the method to change. It is only with the facilities of knowledge that you will be able to attain total success.
- 10) If you lack the power to discern, then you will definitely have many question marks such as “What? Why? How?” in every situation. It will then be very difficult for you to put a full stop of the drama.

This is why you yourself would be in the confusion of “Why? What? and How?” Secondly, you will never be able to bring other souls close. You might bring them into a relationship, but not a close relationship.

- 11) As you progress further, Maya will come in front of you in such a way that you will definitely need the power to discern. Eternally keep the power to discern with you. If you lack the power to discern, you will end up wandering on the spiritual path. You will not be able to become an embodiment of the codes of conduct of the Brahmin clan.
- 12) When souls are thirsty for peace and they receive peace, what will happen? Through that attainment, they will become effort-makers for all time. By your discerning the feelings of each one's minds and by understanding them, you will see a lot of success in service in a short time.
- 13) According to the time, keep the eye of your intellect clear and careful and by being knowledge-full in advance, you have to return with the blessing of being able to discern through which you will never be defeated by Maya. Those who listen to this and see this will surrender themselves to those who are never defeated by Maya.
- 14) Many times, because of being influenced by Maya, some children consider the dictates of their mind to be shrimat. Therefore, always use the power to discern. Sometimes, because of not being able to discern properly, you cause a loss to yourself. Therefore, when you are unable to discern something by yourself, take help from the elevated instrument souls. Have it verified as to whether something is shrimat or manmat and then put it into the practical form.
- 15) In order to discern your own attitude, check what the effect of your attitude is on the atmosphere. If the atmosphere appears to be something else, then understand that there is some weakness in your attitude. So, you should finish that weakness and the attitude is transformed by taking a vow.
- 16) You have a testing tool to determine whether gold is real or artificial. In the same way, in order to discern yourself and to increase the power to decide, you have the testing tool of every task and every activity of Sakar Baba. Whatever actions you perform and whatever thoughts you have, if you check them against this testing tool as to whether they are accurate or inaccurate, wasteful or powerful, then, after testing them against this testing tool, the actions you perform will be easy and elevated.
- 17) The meaning of self-realisation is to discern and know yourself. When you first of all discern the Father, you will then be able to know Him and recognize Him. When you recognize Him, you will be able to come close to Him and become equal. The power to discern is the number one power. The basis of knowledge is to first recognize the self, and then to recognize, that is, discern the Father and His task that is being carried out. This is said to be the stage of being knowledge-full.
- 18) A mahavir means one who is always a conqueror of Maya. A mahavir is never afraid of Maya, but challenges her. No matter what form Maya comes in, with the power to discern, they will discern Maya and be victorious. They will discern Maya coming from a distance. The sharper your power to discern becomes, you will be able to discern Maya from a distance and chase her away.
- 19) Those who have the virtue of tolerance will hold the shield of drama as a detached observer and will easily develop the powers to discern and decide. The more tolerance you have, you will automatically continue to receive all powers from the almighty authority. Whatever words those with the power of tolerance speak, these will not be ordinary, and they will also perform actions accordingly.
- 20) You develop the power to discern with concentration and focus of the intellect. For this, you need to be beyond the upheaval of wasteful and impure thoughts and have the stage of taking all sweetness from the One. If your intellect and stage fluctuates in many tastes, then the power to discern reduces and because of not being able to discern Maya, she makes you her customer. Then you cannot recognize this is Maya. You cannot even tell when something is wrong.
- 21) The method to be a destroyer of obstacles on the Godly (spiritual) path is to discern Maya and after discerning, to decide, because Maya comes in a royal Godly form in front of children who are on the spiritual path. In order to discern her, increase your concentration, that is, the power of silence. The

power of silence brings you cries of victory from cries of distress. The power of silence will constantly garland you with garlands of success.

- 22) Self-realisation means to discern and know yourself. When you recognize yourself, you will be able to come close to the Father and become equal to Him. In common language, to discern is to recognize. Recognise the Father's task and however and in whatever way drama is moving, let the stage of the mind be according to that, and not shake at all. To continue to move along the rails of the drama second by second, is the concentration of the mind.
- 23) Constantly stay in the company of the almighty authority Father and you will never wilt. If your connection is good, you will automatically receive the current of all powers. When you continue to receive all powers, you will remain constantly cheerful and your sorrow will finish. The confluence age is the time of happiness, and if at such a time, someone brings sorrow, you would feel bad, would you not? Therefore, imbibe the power to discern and step away from the world of sorrow and suffering.
- 24) I am equal to the Father, a master almighty authority who has a right to all powers. Revise this awareness again and again and have realization. Then, you will always experience yourself to be a master almighty authority and never get tired in service. Have realization with an honest heart, realise the reasons and continue to find solutions and move forward.
- 25) You can recognize a person who comes in front of you from their eyes. At that time, their eyes and their attitude will be focused on one thing. Their words will be according to that and their stage will be full of intoxication. It is said: the world in your vision. So, through their vision, you can know their world. For this, let your intellect be very clean and concentration. Never be influenced by anyone else.
- 26) At present, if you are lacking the power to discern, you will be deceived because many such souls will come in front of you and are internally one thing and externally something else. They will come to test you and so, be aware of what they have come for. What is their attitude? For this, increase the percentage of your light. Consider yourself to be a law-maker, and let every step be law-full according to shrimat. Do not mix the dictates of your own mind in that.
- 27) Each one of you is a master creator. A master creator can discern his own power through his creation. As is the seed, so is the fruit that emerges from it. If the seed is not powerful, then sometimes flowers and fruits will emerge, but will not be worthy of being accepted. If the seed is not powerful, its creation will not be worthy to be accepted.
- 28) From time to time, different types of people and different tests will come in front of you, and as you progress further, more will come. At such a time you need the power to discern. To be able to discern (recognize) all types of people in different tests and to protect your powers is the special duty of you Pandavas. For this, Pandavas first have to protect themselves and then protect everything around them.
- 29) Each jewel is more elevated than the other, but even then, you definitely need the power to discern. It is only based on this that you can claim a number. You must not have many thoughts to be able to discern any situation, souls with any type of thoughts, and both the present and future. In order to increase the power to discern, along with the stage of soul consciousness, your intellect must not have too many waste thoughts. Let the intellect always be focused in the remembrance of One, in the task of One and in a constant and stable stage. Let your waste thoughts not be mixed in that. Only then will you be able to discern each one as they are.
- 30) Your promise is: We belong to One, We belong to One and will remain as One. We will follow the dictates of One. Always let this be firm. The more stable you remain in the avyakt stage, the more easily you will be able to discern Maya and keep yourself safe. By staying in the avyakt stage, you will experience spirituality in your every action. You will experience supersensuous joy through all your physical senses. Spirituality and uniqueness will be visible on your face.
