

Om Shanti!

Happy Sadguruvaar to everyone! Baba, Avyakt Bapdada said that whatever I have, I have given you. So, you are the ones who have to bestow now to others. Not only that, but Baba said that Baba has given to you, but how to use it? You all are number wise in using it. I think that's what Baba also said in the message, to become the example or the model. So, Baba said that I have nothing left, in the sense that I have given you all the treasures. How do we feel about that? Baba has given us everything. Now He wants us to use that, and Baba said that you have to be the proof, saboot, or the example of that. So, it was really a kind of message that now is the time for each one of us to use whatever Baba has given us. It means that we need to contemplate and churn and see that we are a practical example. Especially these days, whatever, wherever we are, we need to have a lot of patience, we have to be detached observers, we have to be sensible. Baba has given knowledge, but how do I apply knowledge and change that knowledge into quality? People don't know what knowledge we have. Recently, I think on December 3<sup>rd</sup>, there was Gita Jayanti, and they were celebrating all over. So, one of the saints said that Brahma Kumaris, each Brahma Kumari's life is the real Gita. It's not only that they wear white clothes, but their character also is very clean. I was saying that of course we have all the qualities, but as Baba said, to keep true hearts so that whatever is lacking, whatever weaknesses are there, they can also be removed. Everything gets noticed. Everyone in the world, lokik world or spiritual world, is very sensitive. They come to know everything. So, on one side there is glorification, everyone talking about the life of Brahma Kumaris, and a lot of praise by all the leaders whether they are religious and first time, or heads of religions, they are talking about the life of Brahma Kumaris and the service that is done. They said they have never seen people serving for so many hours and serving through their mind, through body, through even wealth.

One person gave a very good experience that people ask from where they get money? He gave the example of Gyan Sarovar. Dadi Prakashmani told everyone to put one rupee in Baba's box. And so, a number of Baba's children did this, and by the time they gathered, there was a lot of money. Even some money was left which was used later on for Shantivan. So, a lot of principles that Baba has taught us are being praised and people can see how we are in practical life. I also saw very simple, not necessarily very educated people in villages, small towns, the way they speak and do service really is amazing. So, as I said, glorification is there, but Baba also wants us to be conquerors of Maya? I was also thinking about how important it is to tell Baba whatever is my difficulty, whatever I am able to do, and what I am not able to do, so that Baba's blessings can help me. Today Baba said that Baba's blessing will remove everything, because if we have to be the models, if we have to be the examples, then we have to be perfect, complete, never feel anything is lacking or anything is impossible or difficult. So, we are also the ones who are the bestowers of blessings. How do I keep using that inner purity, inner power, company of God, all that power that Baba is giving? We have to take it, apply it and in practical life show that this is what God does, this is what His power is,

this is what His blessings are. Each one of us have to be the practical example of that and then it's not, as Baba said,difficult or we have to do much. Baba is the one, but I need to have a true heart so that Baba can get it done through me. Today, also when I was going to offer Bhog, it was so elevated, the energy was like Baba said, "Now is the time, just be ready for it." Baba is helping us now, so why not take help? Baba is making it practical and possible, so why not do it? We should do it properly. So, as Baba said during the day, notice what little things that are emerging, and it's a kind of some days could be carelessness, sometimes could be the dictates of one's own mind. The sanskars are very strong and they dictate to us, but now is the time to follow Baba's Shrimat and do everything according to what Baba wants us to be. I'm sure we will be very soon, each one of us, a model that Baba wants us to be. To be a good example, and divine like in the Golden Age.

Om Shanti
