

Happy New Year 2023

Dear Powerful Souls of the All-Powerful Father,
Love-filled greetings on this auspicious occasion of newness!

BapDada has such an elevated vision on each and every one of us—and continues to sustain, guide and bless us as we fly with so much lightness towards our destined stage of completion.

This is the season to give the return of the Father's Love, by bringing a balance between revelation and our promise. From the depths of our hearts, let us now doubly underline the word 'firm'. With love for honor and honesty, let us go beyond even royal forms of excuses, carelessness, and waste...and make all these three the same: to understand, to have the wish to do something, and to actually do it.

With heartfelt wishes to each and everyone
for continued success in your journey with Baba
towards perfection.

In Baba's Sweetest Yaad,
BK Mohini Didi
