

**St. Louis Missouri USA Service News
Earth Day Festival, April 22-23, 2023, 11 am – 5pm
Muny Grounds, Forest Park St. Louis**

Every year, thousands of people attend the St. Louis Earth Day Festival. About 250-300 souls visited the BK Booth which hosted information table, virtue scope and meditation corner.

Even though the weather was cold, souls were interested to sit and meditate. They were offered five or ten minutes option of meditation.

As the Washington University of St. Louis is nearby to the festival, we had students visiting our booth and they liked our virtue scope sessions.

Many souls took interest to get more information on our meditation classes schedule and details on workshops. Om shanti!
