

## **Mongolian prosecutors are interested in KARMA**

### **June 2023**

In mid-June, BK Inna Kim, Coordinator of Brahma Kumaris in Mongolia, was invited to give a lecture on karma for the Prosecutor's Office's staff in the city of Kharkhorin, Ovorkhangai region, 250 miles from Ulaanbaatar (the place where Genghis Khan founded the ancient capital of Mongolia).

Our new student Sis. Khorolgarav graduated from the University of Law in Ulaanbaatar and left to Kharkhorin for her job. She wanted to share spiritual knowledge with her colleagues because the profession of the prosecutor is very nervous and sometimes even corrupt. The long discussion about the possibility of the programme resulted in our trip to this beautiful place in Mongolia where we met many new people.

All the 16 members of the Prosecutor's Office gathered in the conference room to hear about the deep spiritual aspects of the philosophy of KARMA. Their faces showed genuine interest. During the meeting, there were many questions and answers, proposals for further cooperation because all the people understood the importance of the spiritual knowledge at present time, when stress and crimes are widespread in the society. The meeting ended with a five-minute meditation. Everyone could feel deep inner silence and peace. The atmosphere completely changed and nobody wanted to leave the room. Every participant got a sweet toli and a card with his/her special virtue. Then some people asked for individual talk or consultation.

Every morning during the next three days, all the group met online for a short Raja Yoga meditation course. They have got an introduction of the soul, the Supreme Soul and the Raja Yoga method on how to maintain peace and remain honest.

One of the prosecutors suggested to hold a special online class on KARMA for prisoners. At the end of June, 300 prisoners and the staff gathered in a large hall in front of the screen. At first it was difficult to attract their attention and to make them interested, but a sincere brotherly attitude towards each participant, a talk about their good qualities, simple points of knowledge which are important in life, and God's support melted the ice, and smiles appeared on their faces. Collective meditation completely transformed their mood. At the end of the lesson, they clapped, showed 'likes', and thanked the organisers. We felt that their gratitude came from the heart.

One of the participants came up to the microphone and said that the words and pictures of the presentation touched him very much, and he realized that he should not blame anyone. He understood that he might go forward and be very attentive to his thoughts and consciousness.

We hope for further cooperation with the justice authorities not only in this aimag (region), but also in other regions of Mongolia.
