

The Janki Foundation
for Spirituality in Healthcare

Dear Friends,

We hope you, your family and those around you are well and safe.

With loving and peaceful thoughts, we wish to inform you that our honourable and much loved Dadi Janki, 104 years young, Spiritual Head of the Brahma Kumaris and the President of The Janki Foundation, passed away early morning on Friday 27th March.

Dadi has completed her invaluable journey on this earth having lived a life of truth and simplicity using each moment of her life in a worthwhile way. She is the heart of the world having touched what was real and true in everyone's heart, and leaving a priceless legacy.

It is a time to pay silent homage to this tireless spiritual leader who has meant so much to so many. Dadi has been the inspiration for the work of the Janki Foundation, one of the aims being to provide regular support (since the start of the charity) to the Global Hospital and Research Centre in Rajasthan, India, where she was cared for in her last few days. We treasure the wealth of personal lessons in wisdom, courage and hope that she shared through her life. Let us connect in the remembrance of the Divine, the One to whom she dedicated her life.

To honour Dadi, the Brahma Kumaris, are having online live meditations and sharings about the life of this great soul over the next two days (from today) from 7-8pm. You are welcome to join them. It will be webcast on: [CLICK HERE](#)

Their webpage is also open for receiving condolences - please [CLICK HERE](#)

With all good wishes from,
All trustees and friends at Janki Foundation
