

Madhuban – August 2018

Letter of Sweet Remembrances sharing Hearty, Auspicious Congratulations for the Pure Festival of Raksha Bandhan

To the dearly beloved children of the supremely pure, most Beloved Mother Father BapDada, those who are experiencing the closeness to the stage of all attainments and completion through their elevated mind, speech and actions, those who have become instruments in establishing the Golden Age with the strength of purity. To our tireless servers, the instrument Teachers, and holy swans who are the decoration of the Brahmin clan, all our sisters and brothers in Bharat and foreign lands. Please accept sweet, love-filled remembrances along with hearty congratulations for the pure festival of Raksha Bandhan.

Presently, very good Yoga Bhattis are taking place in Madhuban and Shantivan. All of you would also be participating in special, powerful bhattis at your respective places, during the months of July and August. Sweet Baba has sustained all of us immensely through the avyakt form. From time to time, Baba has also given us a variety of homework which everyone is paying attention to. Looking at the closeness of time, we have to spread the wave of intense effort-making. According to the delicate times, BapDada has especially signaled us to apply a full-stop to our thoughts in a second, and practice the bodiless stage repeatedly.

The Rakhi Festival, which reminds us of our pure, firm thoughts and promises, is nearing. This festival is symbolic of spiritual love and becomes instrumental in unlimited service. Everyone celebrates this festival with lots of love and pure feelings in Bharat and foreign lands. On this day, souls come closer to one another very lovingly, and also take a pledge to be cooperative in service. Centres in Bharat are honouring this Year as “Global Awakening for the Golden Age”, and good service programmes are taking place under this theme everywhere. The time has come to spread the light of Spiritual Knowledge throughout the world and give the good news of the coming Golden Era. Along with this, we also have to become elevated Yogis, great tapaswis and spread the wave of enabling others to have visions through our constant form of spirituality.

Baba says, Children, the time to make efforts is over; now it is time to take a pledge to become perfect and complete. Let no waste or negative thoughts emerge in the mind. We have to create an immovable and unshakeable inner stage with the constant awareness of being an instrument and by staying in the remembrance of Karavanhar Father. We also have to attain all powers by doing accurate yoga. We have to become the embodiments of success and blessings by using our body, mind, wealth, time and breathe in a worthwhile way.

On the auspicious occasion of the festival of Rakhi, let's all make a promise that:

I will spread the rays of purity in the atmosphere by constantly stabilizing myself in the stage of the Immortal form and give the experience of the power of purity through my eyes and forehead.

I will become the embodiment of success through my behaviour filled with love and contentment.

I will remain content and make everyone content by following all the Spiritual Laws and Codes of Conduct with determination.

So today a beautiful Rakhi of love is being sent to you from Madhuban, our unlimited home. On the day of Rakhi, our sweet instrument Teachers are requested to show this Rakhi in your classes and remind all sisters and brothers of these promises made to Bapdada. Let each one feel that this pure Rakhi of love has come especially for me, and get the Rakhi tied and mouth sweetened with these pure feelings, and also make an elevated promise filled with determination.

Our beloved all Dadis, Dadi Gulzar and the unlimited Madhuban family are giving you lots and lots of congratulations on this auspicious occasion. Achcha. Remembrance to all....

On Spiritual Service,

B. K. Janki
