

INVITATION: THE TOWER OF SILENCE 11

International Intense Online Silence Retreat

15 to 27 June 2021

"Wherever you are, I shall find you and together we will fly to paramdham and to our satoguni homeland."

You are warmly invited to a retreat to empower BKs, and especially BKs who are scientists, to progress with a fast speed. The retreat is for BKs over 5 years in gyan. It will be held on-line. It is the follow up to a series of retreats with the title SYMPHONY OF CELESTIAL SILENCE that took place at various places in India and abroad, including in Madhuban, during the past 7 years, and now ushers into a new series called TOWER OF SILENCE.

The retreat is in complete silence from begin to end.

During the retreat you will be given guidelines for participation. The foundation of the guidelines contains an in-depth clarification of the difference between bhakti silence and gyani silence in communion with the ONE. The experiential guidelines also explore the original significance of aspects of gyan, hidden in silence (vigyan) and murlis, so solve the riddles, which refined scientists often experience as salvation from the chains of bhakti and as the reply to fundamental questions of science. We have seen, that this leads to the scientific and technological discovery of solutions for the re-establishment of the era of truth. With the background of our silent gyani sakaash, these inventions will continue to be refined until the official beginning of 1.1.1., now, in advance.

We will experiment with the beginning and advanced perfect angelic stage, so empower the emergence of the individual reality of satyug, here in sangamyug, to soon be able to offer not only hope, but interdisciplinary solutions to humanity, by allowing us and the world

to recognize Baba, experience His perfect creation with its completing effect on souls and matter.

You can register with the below link before the 10th of June 2021.

Pls. take care in advance, that you are free from lokik and alokik verbal services during the whole retreat period.

With the fundamental stock of gyani silence accumulated in this retreat, you can continue to increase your % of the karmateet stage by letting Baba make your remaining life a silence retreat.

In this way true service becomes most effective as taking place in Baba's immaterial speed.

Every moment of silence is a response to the extremely urgent call of the hour.

in Baba's Silent Yaad,
