

THE SANCTUARY WITHIN

IN THE SILENCE OF THE ONE

In the silent oasis of our inner self, we are held in the love of One.

The beating heart becomes still as the mind surrenders to the sweet whispers of our Beloved.

We feel the tender nurturing energy of our Baba in the depths of silence, as we merge into the Light of the One who ignites our own light.

Lost in the silence of His Loving Embrace, we become free from all worldly constraints and concerns... our power returns.

This is the first of a series of one-day silence retreats, where we travel the globe visiting Baba's Retreat Centers...experiencing a sense of coming together and being held in the love our One Baba has for us.

You are invited to visit Australia's four retreat centres in this first of a series of silence programs.

Experience the beauty of Australia and spend time in the silent tranquil sanctuary of nature, with the birds and animals.

Your sakaash will assist in healing the trauma nature has experienced through fire and flood.
