

## **Divine messages from the subtle regions for Ishu Dadi**

Respected Ishu Dadi shed her old body on 6 May 2021. On 7 May, at 10am, the final rites ceremony and the cremation took place in Muktidham, near the river near Shantivan. After that, Rukmaniben offered bhog to Baba for her for 12 days every afternoon in Shantivan. Mohini Didi of New York also offered bhog for Ishu Dadi for 12 days. The messages from the subtle region are shown below.

### **Bhog Messages brought by Ishu Dadi by Rukhmaniben – 14-18 May 2021**

#### **14 May 2021**

Today as I reached Baba in the subtle region, together with Ishu Dadi, Baba had also emerged Jagdishbhai and Dadi Janki for bhog. Upon seeing Jagdishbhai, Baba said, “this child is one of the original jewels. This child has done a lot of service. He has brought a lot of progress in the Yagya and he has also won everyone’s hearts”. Ishu Dadi was extremely happy to see Dadi Janki. Baba then said, “Today in the subtle region, there is a special loveful gathering of you children. In Sakar days, you used to meet each other personally and have spiritual chit. Dadi Janki said, “Ishu, you too have reached Baba”?”

It seemed as if each one was remembering their favourite gods and goddesses and offering bhog to them. It was a very beautiful scene. Baba said, “During the confluence age, there is a special part fixed to feed bhog of the yagya to the Brahmin children, and to the souls who have departed”. Both Dadis were looking at Baba and Jagdishbhai spoke: “Baba now our company is increasing. For the task of the establishment in the Yagya, our companions are increasing”. Dadi Janki asked, “For how long should we wait”? Baba replied, “Baba is not making you wait, it's you children who are taking your time. When you children prepare quickly, then destruction will take place in no time. The task will move forward according to the speed of the children”. There was a sweet spiritual chit chat between Dadi Janki and Jagdishbhai.

The bhog tray was placed in front of Baba, and Baba asked “who should be offered bhog first today”? Dadi Janki said, “Today I will feed Baba first”. Baba replied “No, first Baba will feed you children and only then will Baba accept bhog”. Baba then offered bhog to Dadi Janki first and then Ishu Dadi and Brother Jagdish. Baba then merged Jagdishbhai. Baba continued: “Baba will especially take child Ishu on a tour somewhere or the other. Until now Baba has kept you in the subtle region, later you will go for service. Firstly Baba will take you to the service places for seva”. Baba then merged both the Dadis”. Baba said “give my love-filled remembrance to all. They prepare, decorate and send bhog to Baba with so much love”. Baba too emerges his children and the Dadis in the subtle region and offers bhog to them.

#### **15 May 2021**

Today as I reached the subtle region with bhog, I gave Baba everyone’s remembrance. At the same time Baba emerged Ishu Dadi. Baba said “during these times, lokik Brahmins are fed, and they are given donations”. Baba continued, “For Brahmins who are Baba’s children, each one is greater than thousands. Baba is known as the one who has a thousand arms and that is why no Brahmin is any less”. At the confluence age, you Brahmin children offer bhog to the souls who have departed. This custom begins at the confluence age. In the world people offer 36 or 56 varieties of bhog to celebrities or wealthy souls in front of lokik Brahmins. Whenever Brahmin children bring remembrance and bhog for a particular child, the true Satguru Father emerges the child who has performed elevated actions and offers bhog to them in the subtle regions. Baba said, “The children who are doing this, and inspiring others, to do are very elevated and fortunate.

Baba has seen, now, according to these current times, people in the world are not even able to do this much. Many souls are departing from each family. Baba receives the children’s thoughts and remembrance. Through thought power, Baba emerges those children and offers them bhog lovingly in the subtle region, making those children content. Baba emerges this child especially and offers her bhog from Madhuban with a lot of love. Bhog is filled with everyone’s thoughts and remembrance. The bhog tray was put in front of Baba. Baba very lovingly offered the bhog to Ishu Dadi, and gave love filled remembrance for all brothers and sisters and I came back to the Sakar world.

## 16 May 2021

Today as I reached the subtle regions with bhog, I saw Baba returning from a tour with Dadi. I asked Baba “where did you take Dadi for a tour today? Baba replied, I took the child on a tour of many centres. Children from many centres were remembering Dadi. I said, Baba I have brought bhog. Dadi looked at the bhog and asked, “Why did you bring so much bhog?” Baba said, “This child has been an incarnation of economy from the very beginning. This sanskar remained with her till the end. When Baba’s children brought anything, she would be happy seeing it, but soon after would forget about it.

From the beginning this sanskar was visible in all the Dadis and Baba’s old children. Whenever anyone gave something, they would accept it with a lot of love, however, there would not be any attraction, nor the thought to keep anything for themselves. Baba continued, “This is why the child, upon seeing the bhog tray is saying, why did you bring so much”? Baba said to Ishu Dadi: “Baba will keep you in the subtle regions for a couple of days and then you too will go on service”. Afterwards, bhog will be offered according to the time and date. Dadi was sitting peacefully and lovingly with Baba.

Dadi said, it is good, the companion sisters and brothers make every item of the bhog with a lot of love and remembrance and send it for me and Baba. Dadi and Baba smiled internally and Baba said “that this bhog is sent for Baba and the child but it is all the Brahmin children who have it. It goes in the mouth of all the Brahmin children and they become very happy and content. This is why, bhog is sent to Baba from time to time, and Baba emerges the soul and offers it to them. Baba said to Ishu Dadi: “Open your mouth, what would you like to have first”? Baba, whilst giving drishti to all the items, lovingly filled them with power and offered bhog to Dadi. Baba said, “because of this child, and because of Baba, many children’s mouths are sweetened”. Baba and Ishu Dadi gave a lot of remembrance for the residents of Shantivan. I returned bringing back love and remembrance.

## 17 May 2021

Today as I reached the subtle region with bhog, I saw Dadi sitting carefree next to Baba. I said Baba I have brought bhog and remembrance from everyone for Dadi. Baba said: “From the beginning, this child has had the fortune of living with the Dadis and Mama. She cooperated to bring about progress in every task, and continued to work together”.

Today, seeing the bhog, Dadi was experiencing that now Baba will send me to one or another service place. Baba said: “This is the fortune of the Maharathi children that for at least 12-13 days, the children are emerged in the subtle region and are offered bhog. Children have performed bhakti in their previous births, so definitely they will receive the fruit of that. Baba offers the children bhog in the subtle region as the reward of bhakti. The confluence age is the most elevated time for you elevated souls, because you celebrate a meeting with God, the father and God offers bhog to you children with His own hands. Whilst listening to Baba, Dadi would become an image of maturity or an image of love. Baba said “this was the nature of the child even in the physical form”.

“Baba daily emerges the child in the subtle region and when bhog arrives He would offer it with love.” Saying this, Baba lovingly offered the Madhuban bhog from Shantivan. Dadi too whilst looking at Baba, fed Baba the bhog. Baba and Dadi both said, “give everyone our heartfelt remembrance with love”. Dadi said “I too remember everyone”. I returned with love and remembrance.

## 18 May 2021

Today as I reached the subtle region with bhog, I said, “Baba I have brought everyone's love filled remembrance and bhog”. Baba smiled and instantly emerged Ishu Dadi. I looked at Dadi and said, ”Dadi today all Baba's children are remembering you in the corporeal world. It feels as if everyone is remembering the garland of your virtues.” Whilst I was relating this to Dadi, all of a sudden Baba came and put a garland of her many virtues around her neck. Baba said, “From the beginning this child has served in an incognito way. Today Baba too was listening to how everyone was praising and appreciating Ishu Dadi.” As soon as Baba garlanded her, Ishu Dadi removed the garland and put it around Baba’s neck. Dadi said “Baba it is you who has made me worthy of all these virtues and specialities that everyone is talking about. I came at a young age, I did not have any knowledge or understanding. Whatever I am today, it is you who has made me worthy.”

Baba then showed me a shell. “A shell which contains a pearl has a lot of value. In the same way, the original jewel children who came in the beginning with Mama Baba renounced and did tapasya with Baba. This child is filled with those sanskars. The greatest speciality of this child is that from the very beginning she remained a complete conqueror of attachment in Baba's home, in Baba's Yagya. This child never had any attraction or attachment towards her lokik family. As soon as she opened her eyes she only saw the Brahmin family and Mama and Baba. This godly family was always in front of her eyes. Everyone would come in close relationship with this child due to having a give and take with her. This child remained very close from the beginning with the Didis and Dadis. There was always a special love for all the Dadis” Baba said, “such a child, who has come from the very beginning, who is an embodiment of maturity and an incarnation of economy, words are not enough to praise her”. Dadi was smiling internally whilst listening to Baba praising her. Bhog was placed in front of Baba and Dadi.

I said, “Baba today I have brought the remembrance from all the senior brothers and sisters and of all the Madhuban niwasis”. As soon as Baba saw the tray of bhog, Baba said, “Ishu, look at the variety of food that has come for you”. Baba was opening each container and Ishu Dadi was watching. Today bhog arrived in front of Baba from many places according to the time. Whilst looking at each bhog tray, Baba was admiring and filling each variety of bhog with power. Baba then offered bhog to Dadi very lovingly and Dadi offered bhog to Baba. Baba said “this love between the father and children at the confluence age is very unique”.

Today, together with Baba, Ishu Dadi gave lots of love filled remembrance to the brothers and sisters and the Madhuban niwasis. Baba said, until now Baba has kept the child in the subtle regions, however now Baba will make the child serve according to her worthiness. Baba will do further service through this child. Baba then merged Ishu Dadi, and I returned bringing love and remembrance for all. Om shanti.

### **Mohini Didi of New York offered bhog for Ishu Dadi for 12 days (Divine message from the subtle region)**

#### **7 May 2021**

I went to Baba in the subtle region with bhog for Ishu Dadi and saw Dadi was in a state of rest. I said: The whole family has sent love, remembrance and bhog. Baba Himself accepted bhog and also offered it to Dadi. Baba said: Now, Dadi is in a state of deep rest and in silence, because she is now preparing for her new part. From the beginning, she had a very important part in the yagya. Now, the yagya is to be completed and so her part has also finished. Baba said: She was an idol of love, and she also used to respect everyone. In her heart, she not only had feelings of gratitude for Baba and everyone, she also had respect.

#### **8 May 2021**

I placed the bhog in front of Baba and said to Baba: On behalf of the whole family, I have brought bhog for Ishu Dadi. I gave the remembrance of Kavtaben and everyone and Baba began to smile. Ishu Dadi was Baba's very much loved, near and dear jewel. Baba said to Dadiji: Love, remembrance and bhog has come for you. Baba offered bhog to Dadiji. Then Baba exchanged drishti with Dadi and the family.

Then Baba said: Now, all of you will have to wear your angelic dress, because now everyone is experiencing fear and is worried. So that they don't influence you, you will have to wear this dress and then listen to everyone. By doing this, you will remain safe and will be able to save others. You have the oxygen of Manmanabhav. Through this, you also will receive oxygen and by having awareness in every breath, fill yourselves and others with power.

Baba said: The child had many specialities, but she never had any arrogance about any of these. Baba used her every speciality in an unlimited way. From the time she came to Baba, the yoga of her intellect was never connected with any human being, whether lokik or anyone from the alokik family. Her intellect was free and the yoga of her intellect was for Baba alone. Whoever's specialities Baba uses, they also inspire others and that person remains very content and happy. Dadi was an example of being happy and content. Baba asked: Does anyone want to say anything? Dadi said: I received a lot of love from the yagya and the unlimited family. I asked: Do you want to say anything to your companions? Dadi said: Tell them, from my life, you all saw how I was always content and happy. All of you also do the same. Do not remember me, the soul,

just remember Baba alone. Whatever you saw with your eyes, just adopt that in your life. Saying this, Baba gave everyone remembrance and I came down.

### **9 May 2021**

I went to the subtle region carrying everyone's love, remembrance and bhog. Baba gave everyone loving drishti. Today is mother's day and Baba is everyone's Mother. I offered bhog to Baba and said that this was bhog for Ishu Dadi, so Baba offered bhog to Ishu Dadi. Then Baba said: Look, as much as Dadi was light, she was also mature and serious, because whoever has this virtue inspires many others. Baba gave Ishu Dadi loving drishti and Dadi also gave love and remembrance to everyone through her drishti.

### **10 May 2021**

Carrying everyone's love and remembrance and taking bhog, when I reached the subtle region, Baba met me with His drishti. I then said: Ishu Dadi, I have brought bhog for you. Baba offered bhog to Ishu Dadi. Baba said: Bhog is offered at the confluence age, and the memorial of that continues on the path of devotion. The ancestors of the family have to be offered bhog, because on the path of devotion people have so many desires to be fulfilled by them. Here, children do not have any desires. Baba has made each child an idol and each one is different, but if you have the thought that God has created you, then on the basis of that speciality, you become worthy of praise and also worthy to be worshipped.

Ishu Dadi was very trustworthy. Looking after God's treasures, and to looking after them with 100% honesty, there was nothing lacking in this. If there is any feeling of "I" or "mine" in this honesty, then that is not 100%. God Himself created this idol to look after His treasure, and she was trusted by the whole family. She was also very honest in her relationships and connections. So, all of you also look at your own specialities which Baba has given you as a gift and use them in a worthwhile way for the yagya. By paying attention to this, your self-respect will increase and you will also receive regard. All of you look at one another with this vision: Baba has created each one for His Godly task and is continuing to make them. Hearing all this, Ishu Dadi was smiling a lot. Baba gave a lot of love and remembrance for everyone, for those who prepare bhog and those who offer it. Baba gave lots and lots of love and remembrance.

### **11 May 2021**

In Baba's remembrance, I reached Baba to offer bhog and Baba welcomed me with a lot of love through His drishti. I said: I have brought bhog for Ishu Dadi. Baba accepted bhog and also offered it to Ishu Dadi. Baba said to Ishu Dadi: You have won everyone's hearts and everyone loves you from their heart. Dadiji was smiling, and then Baba said: Look, Baba gives knowledge and knowledge is understanding, but all of you have to have yoga. The more steps you take with the understanding of knowledge, the more power you will continue to receive from Baba. Baba said: Look, the better your yoga is, the more lightness you will have. Baba said: Look, Ishu Dadi was pure, she was a kumari, she had a very pure life, but along with purity she had a lot of honesty and cleanliness in her heart. She had a lot of love for each one. Some give a lot to Baba's bhandara and some give a little, but we never saw any alteration in her feelings. Ishu Dadi loved everyone with a true heart. Due to no reason did Dadiji ever let go of her honesty. She was योग्युक्त but along with that she was also युक्तियुक्त. Baba asked Ishu Dadi if she wanted to say anything. Dadi said: You have said it all. Then Dadi said: Tell my service companions: All of you remain carefree. When the time comes, the part finishes and so the soul has to go to play its next part. Keep yourselves busy in Godly service. Saying this, Dadi gave love and remembrance.

### **12 May 2021**

I reached Baba to offer bhog. Baba welcomed me with His drishti and there was also a meeting. I said: I have brought bhog for You and for Dadiji. Baba accepted bhog and also offered it to Dadi. I said: Today, it is also Jagdishbhai's day, so Baba also emerged Jagdishbhai there and gave him love and remembrance and offered him bhog. Then, all were meeting one another with their eyes.

Baba said: Look, at the confluence age, you have all types of understanding, and on the basis of that understanding, you can do whatever you want. When the soul has any type of alloy, then keep the fire of yoga burning. Let it not be that you light the fire, and then it goes out and you light it again. Those who remember that the fire is burning will from time to time remove the alloy with the help of the fire. Baba said: This yagya

has been created and this is also a fire, and what is it for? Whatever you want to sacrifice in it, whatever you want to use in a worthwhile way, it is only through the yagya. If the alloy continues to be removed from the soul, and if everything is being used in a worthwhile way, then the soul can move towards perfection at a great speed.

Baba then spoke of one of Ishu Dadi's specialities. She was always constant and stable and she had unbroken faith. Her love for Baba was absolutely unbroken. It was never broken in any way, at any time. She is unbroken (constant) in every way. Because of this, Dadiji had a chance to play her part for a longer time. And her part now will continue in a different way. Baba didn't say anything, but just said that she would have a different part. After that, Baba said: Whatever scene emerges every minute, whatever situation comes in the drama, if you are in Baba's remembrance, you will experience everything in the drama to be benevolent. The more experienced you become, you will pass through every scene and pass with honours, and you will continue to achieve your stage of perfection. Always consider drama to be benevolent. In the benevolent age, while saying there is benefit in everything, you will benefit and you will be benevolent for others. Saying this, Baba gave lots and lots of love and remembrance.

### **13 May 2021**

Baba was offered bhog and Baba then gave everyone drishti. Baba said: At this time, everyone is asking God for power and good health. Baba said: With the power of your faithful intellect, and, secondly, by keeping your mind quiet with your own inner power and Baba's help, you will be able to overcome all situations. At this time, it is necessary to show everyone the home and the destination. Do not think about how the soul left the body, but, when the soul leaves one body, on the basis of its elevated actions and elevated virtues, the soul experiences the love of the family. For Ishu Dadi, Baba said: Her mind was very stable, and she always continued to take power from Baba with this. Baba also gave love and remembrance to all the sevadharis.

### **14 May 2021**

I arrived in front of Baba and, meeting Baba through the eyes, I gave Him everyone's love and remembrance. Baba said: Every child has to become an angel, but if there is any type of attachment or subservience, then those sanskars will bring you down. The more practice you have of the stage of soul-consciousness, the more you will experience the angelic stage. I said: We will become that with Your help, will we not? Baba said: You receive help according to your stage. The more you create your stage with this practice, the more Baba will give you a lift.

I said: I have brought bhog for Ishu Dadi. Baba emerged Ishu Dadi there and said: Bhog has come for you. Dadiji was very content. Baba said: Look, after many years of tapasya, the soul goes completely beyond everything. Ishu Dadi was playing her part through her body, but otherwise she was completely beyond with everything concerning the yagya. All of you also have to play your part while being completely beyond. Saying this, Baba gave love and remembrance for everyone and sent me down. Om shanti.

### **15 May 2021**

Baba was offered bhog. Baba gave drishti and said: Each of My children is special. From the time that the child becomes Baba's, Baba knows the speciality of each of the children, but children take time to know their specialities, and then they play their part according to that. Everyone is numberwise in this. Only those who recognise their specialities are able to be loved by Baba and be close to Baba. I am Baba's arms, I can do this service – you also need to be able to recognise this. Ishu Dadi had recognised her own specialties. Even facing so many adverse situations, she didn't let go of her part. To note down the murli, to look after the bhandara, correspondence – whatever responsibilities she was given, she looked after all of them very well while being tireless. Those who serve tirelessly receive Baba's help.

### **16 May 2021**

Baba said: For the self and for others the greatest virtue of all is love. At present, Godly love, soul-conscious love has a lot of power. Such souls keep themselves powerful and whoever they love also experiences that power. This is why, at this time, children have to keep their vision, attitude, and actions filled with love. Together with love, let your feelings be very pure. When there are the virtues of both purity and love, then your effort continues to become free from obstacles in every way. Constantly have this feeling. I said: Bhog

is for Ishu Dadi. Baba said: Look, this soul had love for Baba in her heart all the time. Those who have love for Baba in their heart, through them others also experience that love. At present, along with BapDada, also have a relationship of your heart with the ancestor souls and you will receive many blessings.

### **17 May 2021**

Today, I felt as though Baba was calling me. I said: Baba, I have come with bhog. Baba gave everyone drishti with a lot of love. Baba offered bhog to Ishu Dadi. I said: Sometimes, it feels as though You are calling me and it feels easy. Baba said: Baba is always invoking you. The more you stay in your soul-conscious stage, you will feel a pull and Baba will call you to the subtle region. Baba always helps, but you are only sometimes able to take that help. A time will come when, while living in this corporeal world, you will feel that you are not here. For this, you need a stage that is very detached. Let your intellect not be trapped anywhere. This is also a karmic bondage. You can have a thought for service, but if you repeatedly have that, this also becomes a bondage. All of you are karma yogis, but this is Baba's service, it is Baba's yagya and Baba is making you all do everything. If you internally have this awareness, then not only will every action be elevated, it will also give happiness to many others and it will not create any bondages, but you will continue to create your fortune. Ishu Dadi was very detached and, because of being different from everyone else, she was close to Baba, close to the yagya, and she had a close relationship with the Dadis. Then Baba gave everyone love and remembrance.

### **18 May 2021**

Carrying everyone's love and remembrance, I reached Baba with bhog. I gave lots and lots of love and remembrance from everyone to Baba. I said: Some wish to receive power from You, others wish to receive blessings from You. There is bhog for Ishu Dadi and also for other souls. Baba offered bhog to everyone in their angelic form. Baba was giving everyone drishti. Baba said: Look, Baba is present anyway, you also have Baba's help, but such a time will come when only what you have accumulated yourself will be useful to you. When your part changes, then whatever treasures, powers, elevated actions you have accumulated will be useful to you. Now, on the one hand, the times are very delicate and yet also very significant, because whatever you are able to accumulate with the power of your mind, whatever elevated actions you can perform through your body, whatever you are able to do with your wealth, do that and accumulate for yourself. So, continue to use everything in a worthwhile way and accumulate it with altruistic feelings, with feelings of mercy and feelings to serve.

After that, Baba said: Look, from childhood, from the time that Ishu Dadi came, she always stayed with BapDada. By staying in His company, whatever dharna and virtues she had, they were like that of the Father. Of course the company colours you. She was very incognito, but she had filled herself with all of BapDada's virtues and powers. For Ishu Dadi to go now is the end of one chapter, but another one is opening. Everyone is thinking that a very big chapter has now closed. Baba said: That is happening anyway, but another one is opening. All of you have a part in that chapter, and so, all of you mustn't be disheartened or hopeless about anything, and never think "What will happen now?" Whatever is happening according to the drama is fine, but it is now the time of all of you, is it not? All of you stay in the unlimited, have an unlimited heart and a broad heart. Have very loving feelings for the yagya because now, all of you together have to look after the yagya with every type of co-operation. The transformation is huge, but after that huge transformation, whatever happens according to the drama, is very significant and important. Each of you have a part in that. In this, let each one think that each one has to take responsibility for the yagya. Remain engaged in every type of unlimited service, not only create your fortune, but also be co-operative very well.

Ishu Dadi was incognito and the duty she had was huge. From the beginning until now, the bhandari (Baba's box) was in her hands. This part is also finished, she had virtues and also honesty and cleanliness. When there is bhavna in someone and when, according to that bhavna, someone becomes an instrument, there are a lot of blessings and also it (bhandari) is always full. Baba was giving drishti to Ishu Dadi. Baba also gave remembrances to all the service companions.
