

THE SANCTUARY WITHIN

# BABA'S HEALING POWER

In the silence of our inner sanctuary we rest in Baba's Loving Eyes. The gentle power of His love and recognition creates a sacred space of healing deep within that can rekindle the weary soul and illuminate our brilliance.

Our beautiful retreat centers are the jewels of Baba's Heart. They are our sacred spaces, mini-Madhubans, and portals into Baba's Love, where we can experience the stillness of His Mind—and the beauty of the self.

In November we will visit two of Baba's jewels, both located in the USA: **Anubhuti** in California, and **Peace Village** in New York.

We will have the fortune to experience the residents opening their arms and hearts to us all, in a gesture of love and belonging.
