

HAPPY *New Year* 2022

Dear Elevated Souls of the Godly Family,
Warmest Greetings during this festive season!

In this past year, we have received so much sustenance from BapDada and the Divine Family—and as we look forward to the new year, we recognize how precious time is.

With God's Love, the impossible becomes possible. By remaining absorbed in God's Heart, we each are blessed with the power to reclaim our original stage of divinity. Feeling God's complete trust fuels our inner determination to be clean and honest in our efforts. This will create such a wave of peace and purity that others will feel our presence is a blessing from God to the world.

With heartfelt wishes to each and everyone
for a wonderful new year!

BK Mohini
