

Didi Munni's visit to St. Petersburg, Russia

3-8 July, 2019

By coming to Russia, Didi Munni whom we had been waiting on this land since long, brought with her a unique aura and fragrance of Madhuban, our unlimited home. On this trip of hers, she was accompanied by a wonderful team of brothers, Madhuban niwasis, as well as sis. Shalini of Shantivan and Neha Didi of Ahmadabad, respected Dr. Mita Jain and his spouse from Mumbai, and two lovely families with children from Mumbai and Bangalor.

This happy meeting at the Confluence became a true mela, as brothers and sisters from 12 cities of Russia and Belarus also arrived in St. Petersburg to take part in variety of events, that included festiviuous welcome and farewell ceremonies, classes, interviews, informal chit-chats and a lovely meeting with centrewasis.

Welcoming Munni Didi, Didi Santosh said, “At the Confluence, God, the Creator, comes here in order to decorate His creation. But those children of God who consider themselves to be responsible and start decorating themselves with God’s virtues, become instrumental for decorating others as well. Didi Munni has been revealing Baba and making many others closer to God and His yagya with her two main

specialities. Her main virtue is that of OBEDIENCE to God's shrimat and directions of the seniors. By always holding the hand of shrimat, she has been tirelessly fulfilling the task of unlimited service with a lot of bhavna. Her second speciality is that of being a selfless GIVER. She has taught thousands of others how to take care of the yagya, yet she has never had a desire to take anything for herself."

Having been trained and sustained by God and great souls, Didi Munni has become a true Sukh Devi (a goddess of happiness). In a deep and sincere dialogue on the Art of Giving, Didi shared the secret of this stage of hers, "Baba has filled us with lots of happiness, therefore we just have to do the same by sharing this happiness with everyone. I have always kept this aim in my life, "I am Baba's instrument, and I have to give happiness to all Baba's children. I think that in order to do it permanently, without getting tired, we should see others as souls, not as bodies, in the first place. Secondly, we should focus on their specialities, without observing their defects. And another secret: if we fulfill the needs of those souls immediately, without any delay, it brings us blessings from them. And these blessings do sustain us."

*Didi ji, by coming here, you have given all of us lots of sustenance from God. All of us know and appreciate your special part in the yagya. Although you have left Russia now in a physical way, but your heart is still here with us! From the very depth of our hearts we thank you for your unparalleled service!
Wishing you lots and lots and lots of health!*
